

# Foreign Policy White Paper 2017

Submission by Ian Dudgeon

## Introduction

This submission addresses the issues of the primary importance to us of the Asia-Pacific region, our interests and values, who we are and our image, the need for an independent foreign policy, the US alliance, regional engagement, our multilateral and international legal commitments, and aid and development assistance. It puts the views of the author, an active practitioner in international affairs.

## The role of foreign policy

The fundamental role of Australia's foreign policy is to protect and promote Australia's national interests within the global community of which we are part.

## Our region

While recognising we are part of a global community, the Asia-Pacific region is the area of primary importance to us for political, economic and national security reasons.

Geographically, this region reaches from South Asia through to North America. It includes India, China, Japan, South Korea, Russia, the US and Canada. It also includes Indonesia and the other ASEANs, as well as New Zealand and those Pacific Island states in the South West Pacific. Also included are critical sea lanes for international trade, especially the Malacca Strait and South China Sea.

This region is home to more than half the world's population, it is the new engine room of the global economy, and the region encompassing most of our two-way trade and investment. Also, more than anywhere else, any major event and most other events that occur in this region, inevitably, will affect at least some, potentially all, of Australia's national interests, directly or indirectly.

The Indo-Pacific region is also important to Australia, but in relative terms, less so than the Asia-Pacific. This region overlaps with South, East and S.E. Asia and extends vital two-way sea lanes westward to include oil supply routes from the Middle East and sea trade access to and from Europe. These western reaches are also where most ADF overseas operational deployments have occurred during the past decade and a half (e.g. Afghanistan, Iraq) in support of UN-mandated or other alliance commitments. But the region's eastern boundary stops mid-Pacific, and most significantly, excludes North America.

Theory and Practice of Paradiplomacy Alexander S Kuznetsov, 2014-10-17 This book examines and systematises the theoretical dimensions of paradiplomacy the role of subnational governments in international relations. Throughout the world subnational governments play an active role in international relations by participating in international trade cultural missions and diplomatic relations with foreign powers. These governments including states in the USA and landers in Germany can sometimes even challenge the official foreign policy of their national government. These activities which are regularly promoting the subnational government's interests have been labelled as paradiplomacy. Through a systematisation of the different approaches in understanding constituent diplomacy the author constructs an integrative theoretical explanatory framework to guide research on regional governments involvement in international affairs. The framework is based on a

multiple response questionnaire technique MRQ which provides the matrix of possible answers on a set of key questions for paradiplomacy scholarship This comprehensive analysis of the phenomenon of paradiplomacy sheds light on the development of federalism and multi level governance in a new global environment and contributes to the debates on the issue of actorness in contemporary international affairs This book will be of much interest to students of diplomacy federalism governance foreign policy and IR as well as practitioners of diplomacy Chinese Politics in the Era of Xi Jinping Willy Wo-Lap Lam, 2015-03-12 Renowned for his coverage of China's elite politics and leadership transitions veteran Sinologist Willy Lam has produced the first book length study in English of the rise of Xi Jinping General Secretary of the Chinese Communist Party CCP since November 2012 With rare insight Lam describes Xi's personal history and his fascination with quasi Maoist values the factional politics through which he ascended the configuration of power of the Fifth Generation leadership and the country's likely future directions under the charismatic princeling Despite an undistinguished career as a provincial administrator Xi has rapidly amassed more power than his predecessors He has overawed his rivals and shaken up the party state hierarchy by launching large scale anti corruption and rectification campaigns With a strong power base in the People's Liberation Army and a vision of China as an awakening lion Xi has been flexing China's military muscle in sovereignty rows with countries including Japan Vietnam and the Philippines while trying to undermine the influence of the United States in the Asia Pacific region While Xi is still fine tuning his art of governance his zero tolerance for dissent and his preoccupation with upholding the privileges of the red aristocracy and the CCP's status as perennial ruling party do not bode well for economic political or cultural reforms Lam takes a close look at Xi's ideological and political profile and considers how his conservative outlook might shape what the new strongman calls the Great Renaissance of the Chinese race

**Report to Congress of the U.S.-China Economic and Security Review Commission** U.S.-China Economic and Security Review Commission, 2011 [China And The World](#) Samuel S Kim, 2018-02-02 As the postwar international system continues its dramatic transformation the fundamental question of what role China will play is becoming increasingly central Contributors to the volume focus on the developments of the post Tiananmen years addressing the issues raised by China s expanding and increasingly complex relationships with a rapidly changing global environment They consider such questions as What is the principal challenge of post Tiananmen foreign policy How will China cope with the call for a more peaceful equitable democratic and ecological world order How has the nexus between China and the world changed in this transition period and why What are the implications for China s future and for the future of the rest of the world Combining a broad theoretical framework with specific case studies this text tackles themes that have long puzzled Westerners Seeking the often elusive sources of Chinese foreign policy the

contributors assess the relative influences of domestic and foreign factors in shaping policy goals. They also examine the changes and continuities that have characterized Chinese foreign relations over the years, identifying the patterns underlying China's interactions with the major global actors and its policies on specific international issues. Special attention is paid to the word-deed and at times word-word disjuncture in Chinese foreign relations, with several chapters probing the discrepancies between rhetoric and reality, policy pronouncements and policy performance, and intent and outcome. The human rights component of China's foreign policy and China's foreign policy options for the last decade of the century are also discussed. New to this revised and updated edition of *China and the World* are discussions concerning Chinese foreign policies and international relations theories, the relationship between China and the Third World, and China's environmental diplomacy.

**Czech Democracy in Crisis** Astrid Lorenz, Hana Formánková, 2020-04-13. Democracy theories and comparative political science have been challenged within the last decade by an unexpected democratic deficit and the rise of populism in the new EU member states. This volume, written by German and Czech scholars, gives some food for thought for solving these research problems by means of thorough analyses of the polity, the politics, and selected policies of the Czech Republic since 1990. Dieter Segert, retired Professor of Political Science, Area Studies on Eastern Europe, University of Vienna, Austria. *Czech Democracy in Crisis* is a long overdue comprehensive study of the Czech political system. Using institutional approaches to change, it explores crucial policy outcomes. A perfect book for academics and practitioners who want to understand the challenges of democratic consolidation in a new democracy. Lenka Bustikova, Associate Professor of Political Science, Arizona State University, USA, and author of *Extreme Reactions: Radical Right Mobilization in Eastern Europe*. The image of the Czechs as a poster child of democratization has changed into a crisis narrative in recent years. This edited volume traces this change and examines the suitability of different theories to explain developments in Czech democracy. The contributors, all renowned experts in their fields, offer well-founded and compact insights into the post-1989 Czech political system. They cover political institutions and parties, civil society, the media, and selected policy areas such as foreign, economic, migration, and regional policy. The book takes into account processes of democratization and Europeanization, explaining the political picture at various stages of development. Finding that many of today's problems—fragmented political parties, government instability, inefficient state administration, and low quality of governance—have not been new developments but have constantly existed, the authors present a plea for theoretical adjustments that should be read by all academics, students, practitioners, and readers with an interest in Czech politics and society.
