The Oxford Handbook of Language and Society Ofelia García, Nelson Flores (Linguist), Massimiliano Spotti, 2017 This book challenges basic concepts that have informed the study of sociolinguistics It proposes a critical poststructuralist perspective that examines the socio historical context that led to the emergence of dominant sociolinguistic concepts and develops new theoretical and methodological tools that challenge these dominant concepts (u)Mzantsi Classics Samantha Masters, Imkhitha Nzungu, Grant Parker, 2022-10-15 An Open Access edition of this book will be available on publication on the Liverpool University Press and African Minds websites Though Greco Roman antiquity classics has often been considered the handmaid of colonialism its various forms have nonetheless endured through many of the continent's decolonising transitions Southern Africa is no exception This book canvasses the variety of forms classics has taken in Zimbabwe Mozambique and especially South Africa and even the dynamics of transformation itself How does u Mzantsi classics of southern Africa look in an era of profound change whether violent or otherwise What are its future prospects Contributors focus on pedagogies historical consciousness the creative arts and popular culture The volume in its overall shape responds to the idea of dialogue in both the Greek form associated with Plato's rendition of Socrates' wisdom and in the African concept of ubuntu Here are dialogues between scholars both emerging and established as well as students some of whom

were directly impacted by the Fallist protests of the late 20 teens Rather than offering an apologia for classics these dialogues engage with pressing questions of relevance identity change the canon and the dynamics of decolonisation and potential recolonisation The goal is to interrogate classics the ways it has been taught studied perceived transformed and even lived from many points of view Transformations of Higher Education in BRICS Nicholas Sun-Keung Pang, Ewelina K. Niemczyk, 2025-09-30 This book aims to study the current transformations of higher education in the Brazil Russia India China and South Africa BRICS countries The conditions imposed by the Covid pandemic exposed many vulnerabilities in higher education systems but also provided valuable lessons that led to the implementation of effective changes Educational changes are being applied to programmes projects practices and policies with varying degrees of success depending on the context the needs of students and staff have changed and considerable attention has been given to the effective continuation of all academic activities through the use of technology often the nature of higher education and its role in society are being contemplated and ways of sustainable development are being debated Therefore contributors from the five BRICS member states present research findings and critical views on the recent development of higher education in their own countries providing an opportunity for a unified effort and collective input to explore the transformation and reform of higher education This book is intended for researchers policymakers and postgraduate students in higher education educational governance and comparative education *Political Economy of Contemporary African Popular Culture* Kealeboga Aiseng, Israel A. Fadipe, Phillip Mpofo, 2024-04-01 Drawing on examples from across the continent this volume examines socially significant aspects of contemporary African popular culture including music cultures fandoms and community mass and digital media to demonstrate how neoliberal politics and market forces shape the cultural landscape and vice versa Contributors investigate the role that the media politicians and corporate interests play in shaping that landscape highlight the crucial role of the African people in the production and circulation of popular culture more broadly and furthermore demonstrate how popular culture can be used as a tool to resist oppressive regimes and challenge power structures in the African context Scholars of political communication cultural studies and African studies will find this book particularly useful *Spear* Paul S. Landau, 2022-06-07 Spanning the years just before and just after Nelson Mandela's 1962 arrest this entirely fresh history of Umkhonto we Sizwe MK or Spear of the Nation and its revolutionary milieu brings to life the period in which Mandela and his comrades fought South Africa's apartheid regime not only with words and protests but also with bombs and fire **Year of Fire, Year of Ash** Baruch Hirson, 2016-06-15 We can say without fear of being contradicted by history that June 16 1976 heralded the beginning of the end of the centuries old white rule in this country Nelson Mandela Originally banned on publication by the apartheid government Year of Fire Year of Ash is an eye opening account of how in June 1976 20 000 school students faced down the tanks and guns of a vicious racist regime in a revolt that galvanized the black working class and became a pivotal turning point for the anti apartheid movement More than this the book overturns

much of the conventional logic that served to explain the event at the time showing it was not simply a student protest but part of a wider uprising Released in this new edition to mark the fortieth anniversary Year of Fire Year of Ash provides an unparalleled insight into the origins and events of the uprising from its antecedents in the 1920s to its role in inspiring global solidarity against apartheid As South Africa experiences a new wave of popular discontent and as new forms of black consciousness come to the fore in movements around the world Baruch Hirson's book provides a timely reminder of the Soweto revolt's continued significance to struggles against oppression today
