Duquesne in 1755 the British army raised the 60th or Royal American Regiment of Foot to fight the French and Indian War  
Each of the regiment's four battalions saw action in pivotal battles throughout the conflict And as Alexander Campbell shows  
the inclusion of foreign mercenaries and immigrant colonists alongside British volunteers made the RAR a microcosm of the  
Atlantic world Not just a potent combat ready force it played a key role in trade migration Indian diplomacy and settlement  
This book moves beyond the campaign orientation of most regimental histories to explore how the Royal Americans helped  
forge new Atlantic connections Campbell draws on the regiment's rich archival legacy including the private papers of its first  
three colonels in chief and of mercenary field officers to describe more fully than previous accounts the lives these soldiers  
led in the context of their times Campbell takes a closer look at the motivations of regimental founder James Prevost a Swiss  
mercenary in the courts of Kings George II and George III and explores how migration to America attracted rank and file  
soldiers He examines the unit's training deployment and operational conduct to reveal the use of new tactics and also  
chronicles a year in the soldiers' lives as they attended to hard labor in preparation for the summer's campaigns He also  
traces the postwar activities of these veterans showing how many of them by taking up land grants they had been promised  
upon enlistment helped settle the frontier and expand commerce Rather than focus on previously documented animosity

between British regulars and provincials Campbell reveals how soldiers from different backgrounds formed a multiracial multilingual society that reflected a truly cosmopolitan transatlantic identity Strange Colin Wilson, Damon

survey of the Houston art scene of the 1970s and 1980s author Pete Gershon describes the city's emergence as a locus for the arts fueled by a boom in oil prices and by the arrival of several catalyzing figures including museum director James Harithas and sculptor James Surls. Harithas was a fierce champion for Texan artists during his tenure as the director of the Contemporary Arts Museum Houston (CAM). He put Texas artists on the map but his renegade style proved too confrontational for the museum's benefactors and after four years he wore out his welcome. After Harithas's departure from the CAM, the chainsaw-wielding Surls established the Lawndale Annex as a largely unsupervised outpost of the University of Houston art department. Inside this dirty cavernous warehouse, a new generation of Houston artists discovered their identities and began to flourish. Both the CAM and the Lawndale Annex set the scene for the emergence of small downtown artist-run spaces including Studio One, the Center for Art and Performance, Midtown Arts Center, and DiverseWorks. Finally, in 1985, the Museum of Fine Arts presented Fresh Paint: The Houston School, a nationally publicized survey of work by Houston painters. The exhibition capped an era of intensive artistic development and suggested that the city was about to be recognized along with New York and Los Angeles as a major center for art-making activity. Drawing upon primary archival materials, contemporary newspaper and magazine accounts, and over sixty interviews with significant figures, Gershon presents a narrative that preserves and interweaves the stories and insights of those who transformed the Houston art scene into the vibrant community that it is today.

[How Disinformation Ruins Public Diplomacy](#) Juan Luis Manfredi Sánchez, 2025-05-12

*How Disinformation Ruins Public Diplomacy* evaluates and analyzes how Chinese and Russian public diplomacy strategies differ from the existing academic literature and debates specifically in the context of the new disinformation era. In the context of mediatized public diplomacy, disinformation, and deglobalization, this book asks: do China, Russia, and new emerging powers take advantage by employing values and techniques attributed to public diplomacy? What if goals, dialogue, and cooperation are settled on an unfair basis, false content, meddling, and institutional erosion? Can their repertoire of actions be considered public diplomacy? And if their initiatives are not public diplomacy, what impact do their actions have on the theoretical construction of the discipline? While using China and Russia as the two main case studies in order to develop a new theory, this book covers other relevant cases on the management of public diplomacy for other purposes. The case of Turkey provides a model of transformation and adaptation of public diplomacy with Erdogan's hyper leadership built on anti-Western rhetoric and the emergence of a new Ottomanism. The case of India explores Modi's creation of an ethnically branded democracy which places Hinduism at the heart of political decisions. In the case of Morocco, its positioning in religious dialogue, the establishment of relations, and political normalization with Israel and territorial unity in Western Sahara are explored. Exploring how authoritarian powers abuse the global disinformation order to achieve their public diplomacy goals, this book will be of great interest to students and scholars of international relations, politics, public diplomacy, communication studies, and social theory. In the professional sphere, it will also appeal to politicians, diplomats, foreign policy

makers think tanks journalists and foreign correspondents
