Upending the Ivory Tower Stefan M. Bradley, 2021-01-19 Winner 2019 Anna Julia Cooper and C L R James Award given by the National Council for Black Studies Finalist 2019 Pauli Murray Book Prize in Black Intellectual History given by the African American Intellectual History Society Winner 2019 Outstanding Book Award given by the History of Education Society The inspiring story of the black students faculty and administrators who forever changed America's leading educational institutions and paved the way for social justice and racial progress The eight elite institutions that comprise the Ivy League sometimes known as the Ancient Eight Harvard Yale Princeton Penn Columbia Brown Dartmouth and Cornell are American stalwarts that have profoundly influenced history and culture by producing the nation's and the world's leaders The few black students who attended Ivy League schools in the decades following WWII not only went on to greatly influence black America and the nation in general but unquestionably awakened these most traditional and selective of American spaces In the twentieth century black youth were in the vanguard of the black freedom movement and educational reform Upending the Ivory Tower illuminates how the Black Power movement which was borne out of an effort to edify the most disfranchised of the black masses also took root in the hallowed halls of America's most esteemed institutions of higher education Between the close of WWII and 1975 the civil rights and Black Power movements transformed the demographics and operation of the Ivy League on and off campus As desegregators and racial pioneers black students staff and faculty used their status in the black intelligentsia to enhance their predominantly white institutions while advancing black freedom Although they were often marginalized because of their race and class the newcomers altered educational policies and inserted blackness into the curricula and culture of the unabashedly exclusive and starkly white schools This book attempts to complete the narrative of higher education history while adding a much needed nuance to the history of the Black Power movement It tells the stories of those students professors staff and administrators who pushed for change at the risk of losing what privilege they had Putting their status and sometimes even their lives in jeopardy black activists negotiated protested and demonstrated to create opportunities for the generations that followed The enrichments these change agents made endure in the diversity initiatives and activism surrounding issues of race that exist in the modern Ivy League Upending the Ivory Tower not only informs the civil rights and Black Power movements of the postwar era but

also provides critical context for the Black Lives Matter movement that is growing in the streets and on campuses throughout the country today As higher education continues to be a catalyst for change there is no one better to inform today's activists than those who transformed our country's past and paved the way for its future Decolonising Colonial Education Mhango, Nkwazi Nkuzi, 2018-09-24 This book on decolonising education chastises heartens and invites academics to seriously commence academic and intellectual manumission by challenging the current toxic episteme the Western dominant Grand Narrative that embeds espouses and superimposes itself on others It exhorts African scholars in particular to unite and address the bequests of colonialism and its toxic episteme by confronting the internalised fabrications hegemonic dominance lies and myths that have caused many conflicts in world history Such a toxic episteme founded on problematic experiments theories and praxis has tended to license unsubstantiated views and stereotypes of others as intellectually impotent moribund and of inferior humanity The book invites academics and intellectuals to commit to a healthy dialogue among the world's competing traditions of knowing and knowledge production to produce a truly accommodating and inclusive grand narrative informed by a recognition of a common and shared humanity Student Resistance to Apartheid at the University of Fort Hare Rico Devara Chapman, 2016-05-12 The book explores forms of popular student resistance to apartheid education in South Africa particularly at the University of Fort Hare UFH by tracing student activism at UFH from 1970 to 2000 highlighting the factors that influenced the development of a culture of student resistance investigating the root causes that made Fort Hare exceptional in its stand against apartheid and chronicling the educational and social implications that resulted from students unparalleled and fearless actions against the apartheid system Student resistance at Fort Hare can be traced as far back as the 1940s however this book will primarily focus on the critical 1970 2000 period which was marked by increased student activism in South Africa The 1980s and 1990s were peak years for student activism in the country There is no doubt that student struggles during this period and thereafter helped dismantle apartheid and usher in a new South African government **Lessons To Be Learnt From The World's Great Icons' Life Experiences.** Bheki S.V. Ntshingila, 2016-11-23 The book is about the late Mr Nelson Mandela the unrepentant crusader and freedom fighter against the obnoxious apartheid regime in South Africa who became an instant toast of the entire world which is a reminder that in each person there is a seed of greatness expected to be discovered and to be used to make this world a better one for all who live in it instead of experiencing hatred and brutality What makes a person to succeed is not how bad she or he thinks but is high optimism thinking big willingness to learn from others' mistakes and life experiences There is a lot we can learn from Madiba's life experience and I don't doubt that the world is also learning something constructive or destructive from you If you are not constructive to others how would you be constructive to yourself Remember greatness is a phenomenon that could be associated with anyone with a positive mind Good better best never let it rest till your good is better and your better is best The Origin and Growth of Geography as a discipline at South Africa Universities Gustav Visser, 2016-09-20 The

publication provides the first comprehensive text that reflects on a century of the development of geography as an academic discipline at South African universities The book showcases a broad and textured review of South Africa s geography departments their staff members their times and the different Geographies they engaged in The book lays the foundation from which more expansive individual departmental histories can be written in the future *Prioritizing Skills Development for Student Employability* Christiansen, Bryan, Even, Angela M., 2024-02-27 In the throes of a global skills gap and relentless labor market disruptions organizations grapple with the pressing challenge of aligning workforce skills with the demands of a hypercompetitive economy Reports from influential entities like the World Economic Forum and McKinsey Company underscore the urgency for strategic interventions to bridge this divide Despite the pivotal role of higher education and corporate training recent findings from the Society for Human Resource Management SHRM reveal a persistent struggle in finding candidates equipped with the requisite skills for a multitude of available jobs The deficiencies span from foundational communication skills to complex problem solving abilities posing a formidable hurdle for organizations seeking qualified talent *Prioritizing Skills Development for Student Employability* emerges as a solution to the skills misalignment conundrum by delving into the heart of the issue dissecting the intricacies of global workforce dynamics education industry collaborations and the evolving landscape of corporate training By exploring topics such as learning analytics educational artificial intelligence AI and effective leadership in the context of present day human resource management the book provides a comprehensive roadmap for both academic scholars and professionals to navigate the complex terrain of skills development **Addressing Multicultural Needs in School Guidance and Counseling** Taukeni, Simon

George, 2019-10-04 Globalization and shifting demographics have led to a call for an immediate change in education based counseling Future school counselors must be equipped with 21st century skills that are applicable across cultural boundaries and applied in a global context *Addressing Multicultural Needs in School Guidance and Counseling* is a pivotal reference source that provides a framework for school counselors and life skills teachers to implement globally focused comprehensive school guidance and counseling programs in schools as well as intervention strategies that effectively deal with psychosocial issues facing students and their families Highlighting topics such as child abuse diversity awareness and antisocial behavior this publication explores skills applicable to the global cultural shift and the methods of guiding students to reach a higher level of self fulfillment in their lives It is ideally designed for school administrators school counselors psychologists educational professionals academicians researchers and students *Year of Fire, Year of Ash* Baruch Hirson, 2016-06-15 We can say without fear of being contradicted by history that June 16 1976 heralded the beginning of the end of the centuries old white rule in this country Nelson Mandela Originally banned on publication by the apartheid government *Year of Fire Year of Ash* is an eye opening account of how in June 1976 20 000 school students faced down the tanks and guns of a vicious racist regime in a revolt that galvanized the black working class and became a pivotal turning point for the anti apartheid

movement More than this the book overturns much of the conventional logic that served to explain the event at the time showing it was not simply a student protest but part of a wider uprising Released in this new edition to mark the fortieth anniversary Year of Fire Year of Ash provides an unparalleled insight into the origins and events of the uprising from its antecedents in the 1920s to its role in inspiring global solidarity against apartheid As South Africa experiences a new wave of popular discontent and as new forms of black consciousness come to the fore in movements around the world Baruch Hirson's book provides a timely reminder of the Soweto revolt's continued significance to struggles against oppression today

Assembling and Governing the Higher Education Institution Lynette Shultz, Melody Viczko, 2016-09-27 This book emphasizes the inherently democratic nature of education from those who practice in higher education institutions and are involved in decision making to those questioning the methods of reform processes in those institutions As they are faced with increasing pressures to restructure and change their organizations in line with global institutional demands the foundations upon which their leadership and governance are based are called into question This book takes a critical approach to understanding higher education leadership and governance The overarching questions asked in this book are how has higher education come to be assembled in contemporary governance practices within the context of global demands for reform and how are issues of justice being taken up as part of and in resistance to this assemblage **Debates** South Africa.

Debating African Philosophy George Hull, 2018-11-21 In African countries there has been a surge of intellectual interest in

foregrounding ideas and thinkers of African origin in philosophy as in other disciplines that have been unjustly ignored or marginalized African scholars have demonstrated that precolonial African cultures generated ideas and arguments which were at once truly philosophical and distinctively African and several contemporary African thinkers are now established figures in the philosophical mainstream Yet despite the universality of its themes relevant contributions from African philosophy have rarely permeated global philosophical debates Critical intellectual excavation has also tended to prioritize precolonial thought overlooking more recent sources of home grown philosophical thinking such as Africa s intellectually rich liberation movements This book demonstrates the potential for constructive interchange between currents of thought from African philosophy and other intellectual currents within philosophy Chapters authored by leading and emerging scholars recover philosophical thinkers and currents of ideas within Africa and about Africa bringing them into dialogue with contemporary mainstream philosophy foreground the relevance of African theorizing to contemporary debates in epistemology philosophy of language moral political philosophy philosophy of race environmental ethics and the metaphysics of disability make new interventions within on going debates in African philosophy consider ways in which philosophy can become epistemically inclusive interrogating the contemporary call for decolonization of philosophy Showing how foregrounding Africa its ideas thinkers and problems can help with the project of renewing and improving the discipline of philosophy worldwide this book will stimulate and challenge everyone with an interest in philosophy and is essential reading for upper level undergraduate students postgraduate students and scholars of African and Africana philosophy
