Upending the Ivory Tower Stefan M. Bradley, 2021-01-19 Winner 2019 Anna Julia Cooper and C L R James Award given by the National Council for Black Studies Finalist 2019 Pauli Murray Book Prize in Black Intellectual History given by the African American Intellectual History Society Winner 2019

Outstanding Book Award given by the History of Education Society The inspiring story of the black students faculty and administrators who forever changed America s leading educational institutions and paved the way for social justice and racial progress The eight elite institutions that comprise the Ivy League sometimes known as the Ancient Eight Harvard Yale Princeton Penn Columbia Brown Dartmouth and Cornell are American stalwarts that have profoundly influenced history and culture by producing the nation s and the world s leaders The few black students who attended Ivy League schools in the decades following WWII not only went on to greatly influence black America and the nation in general but unquestionably awakened these most traditional and selective of American spaces In the twentieth century black youth were in the vanguard of the black freedom movement and educational reform Upending the Ivory Tower illuminates how the Black Power movement which was borne out of an effort to edify the most disfranchised of the black masses also took root in the hallowed halls of America s most esteemed institutions of higher education Between the close of WWII and 1975 the civil rights and Black Power movements transformed the demographics and operation of the Ivy League on and off campus As desegregators and racial pioneers black students staff and faculty used their status in the black intelligentsia to enhance their predominantly white institutions while advancing black freedom Although they were often marginalized because of their race and class the newcomers altered educational policies and inserted blackness into the curricula and culture of the unabashedly exclusive and starkly white schools This book attempts to complete the narrative of higher education history while adding a much needed nuance to the history of the Black Power movement It tells the stories of those students professors staff and administrators who pushed for change at the risk of losing what privilege they had Putting their status and sometimes even their lives in jeopardy black activists negotiated protested and demonstrated to create opportunities for the generations that followed The enrichments these change agents made endure in the diversity initiatives and activism surrounding issues of race that exist in the modern Ivy League Upending the Ivory Tower not only informs the civil rights and Black Power movements of the postwar era but also provides critical context for the Black Lives Matter movement that is growing in the streets and on campuses throughout the country today As higher education continues to be a catalyst for change there is no one better to inform today s activists than those who transformed our country s past and paved the way for its future

Locating Social Justice in Higher Education Research Jan McArthur,Paul Ashwin,2020-03-19 This book focuses on the relations between social justice and higher education research Jan McArthur and Paul Ashwin bring together chapters from international researchers that explore these relations in a range of national contexts and consider their implications for policies pedagogy and our understanding of the roles of graduates in societies As a whole the book argues that social justice needs to be more than a topic of higher education research and must also be part of the way that research is undertaken Social justice must be located in research practices as well as in the issues that are researched

Digital Preservation and Documentation of Global Indigenous Knowledge Systems Masenya, Tlou Maggie,2023-08-03

Indigenous knowledge is regarded as undocumented cultural local traditional and community knowledge produced and owned by local people in their specific communities. It is mainly preserved in the memories of elders and shared or passed on from generation to generation through oral communication, traditional practices and demonstrations. This irreplaceable resource may be lost forever as a direct result of the pressures of modernization, colonization and globalization. Concern over the loss of Indigenous knowledge has thus raised a need for the preservation and documentation of this knowledge in digital formats. *Digital Preservation and Documentation of Global Indigenous Knowledge Systems* determines how Indigenous knowledge can be documented and digitally preserved to benefit Indigenous knowledge owners and their communities and be accessible for future generations. The book provides the best practices, innovative strategies, theoretical and conceptual frameworks and empirical research findings regarding the digital preservation and documentation of Indigenous knowledge systems worldwide. Covering topics such as digital media platforms, educational management and knowledge systems, this premier reference source is a valuable and useful tool for students, information professionals, knowledge managers, records managers, Indigenous knowledge owners, Indigenous community leaders, librarians, archivists, computer scientists, information technology specialists, students and educators of higher education, researchers and academicians.

The Origin and Growth of Geography as a discipline at South Africa Universities Gustav Visser, 2016-09-20. The publication provides the first comprehensive text that reflects on a century of the development of geography as an academic discipline at South African universities. The book showcases a broad and textured review of South Africa's geography departments, their staff members, their times and the different Geographies they engaged in. The book lays the foundation from which more expansive individual departmental histories can be written in the future.

Housing the Poor on the African Continent Mfundo Mandla Masuku, Oliver Mtapuri, Primrose Thandekile Sabela, Nomusa M. Mlondo, 2022-10-13. This book explores the circumstances surrounding state-provided low-cost housing for people at the lower end of the housing market in Africa. It deploys Ubuntu philosophy to unpack the provision of housing security to citizens, arguing that interpreting housing rights within Ubuntu philosophy recognises the spirit of reciprocity and collective solidarity as fundamental to meeting the housing needs of low-income groups. In essence, the volume reflects on the values of Ubuntu and informs both policy and practice by guiding policymakers, researchers and practitioners with the episteme of basic human rights and the Ubuntu philosophy. It pointedly grapples with issues that resonate with efforts by African governments to protect vulnerable citizens from multidimensional poverty, homelessness, gender-neutral policies and self-help housing schemes. The book's insights raise red flags concerning the realisation of Ubuntu as a vehicle earmarked to deliver adequate and sustainable housing delivery outcomes. The volume is a must-read for academics, researchers, practitioners, government officials and leaders from various sectors.

Digital Inclusion Bruce Mutsaers, Massimo Ragnedda, 2018-08-15. The volume examines the risks and opportunities of a digital society characterized by the increasing importance of knowledge and by the incessant rise and

pervasiveness of information and communication technologies ICTs At a global level the pivotal role of ICTs has made it necessary to rethink ways to avoid forms of digital exclusion or digital discrimination This edited collection comprises of chapters written by respected scholars from a variety of countries and brings together new scholarship addressing what the process of digital inclusion means for individuals and places in the countries analyzed Each country has its own strategy to guarantee that people can access and enjoy the benefits of the information society While this book does not presume to map all the countries in the world it does shed light into these strategies underlining what each country is doing in order to reduce digital inequalities and to guarantee that socially disadvantaged people in terms of disabilities availability of resources age geographic location lack of education or ethnicity are digitally included Anchored in Place Bank, Leslie, Cloete, Nico, 2018-11-05 Tensions in South African universities have traditionally centred around equity particularly access and affordability historical legacies such as apartheid and colonialism and the shape and structure of the higher education system What has not received sufficient attention is the contribution of the university to place based development This volume is the first in South Africa to engage seriously with the place based developmental role of universities In the international literature and policy there has been an increasing integration of the university with place based development especially in cities This volume weighs in on the debate by drawing attention to the place based roles and agency of South African universities in their local towns and cities It acknowledges that universities were given specific development roles in regions homelands and towns under apartheid and comments on why sub national place based development has not been a key theme in post apartheid higher education planning Given the developmental crisis in the country universities could be expected to play a more constructive and meaningful role in the development of their own precincts cities and regions But what should that role be Is there evidence that this is already occurring in South Africa despite the lack of a national policy framework What plans and programmes are in place and what is needed to expand the development agency of universities at the local level Who and what might be involved Where should the focus lie and who might benefit most and why Is there a need perhaps to approach the challenges of college towns secondary cities and metropolitan centers differently This book poses some of these questions as it considers the experiences of a number of South African universities including Wits Pretoria Nelson Mandela University and especially Fort Hare as one of its post centenary challenges

Handbook of Research on Mixed Methods Research in Information Science Ngulube, Patrick, 2021-11-26. Mixed methods research is becoming prevalent in many fields yet little has been done to elevate mixed methods research in information science. A comprehensive picture of information science and its problems is needed to further understand and address the issues associated with it as well as how mixed methods research can be adapted and used. The Handbook of Research on Mixed Methods Research in Information Science discusses the quality of mixed methods studies and methodological transparency, sampling in mixed methods research, and the application of theory in mixed methods research throughout various contexts. Covering topics such as the issues and potential directions for further research in mixed methods, this comprehensive major reference work is ideal for researchers, policymakers, academicians, librarians, practitioners, instructors, and students.
