Machine Learning Methods with Noisy, Incomplete or Small Datasets Jordi Solé-Casals,Zhe Sun,Cesar F. Caiafa,Toshihisa Tanaka,2021-08-17 Over the past years businesses have had to tackle the issues caused by numerous forces from political technological and societal environment The changes in the global market and increasing uncertainty require us to focus on disruptive innovations and to investigate this phenomenon from different perspectives The benefits of innovations are related to lower costs improved efficiency reduced risk and better response to the customers needs due to new products services or processes On the other hand new business models expose various risks such as cyber risks operational risks regulatory risks and others Therefore we believe that the entrepreneurial behavior and global mindset of decision makers significantly contribute to the development of innovations which benefit by closing the prevailing gap between developed and

developing countries Thus this Special Issue contributes to closing the research gap in the literature by providing a platform for a scientific debate on innovation internationalization and entrepreneurship which would facilitate improving the resilience of businesses to future disruptions Order Your Print Copy **Resources in Education** ,1986 [Introduction to Forestry and Natural Resources](#) Donald L. Grebner,Pete Bettinger,Jacek P. Siry,Kevin Boston,2021-01-19 Introduction to Forestry and Natural Resources Second Edition presents a broad completely updated overview of the profession of forestry The book details several key fields within forestry including forest management economics policy utilization and forestry careers Chapters deal specifically with forest regions of the world landowners forest products wildlife habitats tree anatomy and physiology and forest disturbances and health These topics are ideal for undergraduate introductory courses and include numerous examples and questions for students to ponder There is also a section dedicated to forestry careers Unlike other introductory forestry texts which focus largely on forest ecology rather than practical forestry concepts this book encompasses the economic ecological and social aspects thus providing a uniquely balanced text The wide range of experience of the contributing authors equips them especially well to identify missing content from other texts in the area and address topics currently covered in corresponding college courses Covers the application of forestry and natural resources around the world with a focus on practical applications and graphical examples Describes basic techniques for measuring and evaluating forest resources and natural resources including fundamental terminology and concepts Includes management policies and their influence at the local national and international levels
