Hawk Identification Guide

Jerry Liguori

Hawk Identification Guide:

Birds of Northern South America: An Identification Guide Miguel Lentino, Robin Restall, Clemencia

Rodner, 2020-01-23 Volume I of a comprehensive two part identification guide dealing exclusively with the birds of this region. It covers all the species including vagrants found in Ecuador, Colombia, Venezuela, Aruba, Curaçao, Bonaire, Trinidad and Tobago, Guyana, Suriname, and French Guiana. More than 2,300 species are described in depth in the text, describing geographical variation, identification status, habitat, voice, and taxonomy. Detailed and comprehensive colour plates and distribution maps may be found in the second volume. *Birds of Northern South America: An Identification Guide: Plates and Maps*. This authoritative book will not only be an indispensable guide to the visiting birder but also a vital tool for those engaged in work to conserve and study the avifauna of this region, which is of such importance to both the indigenous species and those which pass through on migration.

Hawk Watch Pete Dunne, 1984 *Hawks from Every Angle* Jerry

Liguori, 2005-10-02 Identifying hawks in flight is a tricky business. Across North America, tens of thousands of people gather every spring and fall at more than one thousand known hawk migration sites, from New Jersey's Cape May to California's Golden Gate. Yet as many discover, a standard field guide with its emphasis on plumage is often of little help in identifying those raptors soaring, gliding, or flapping far, far away. *Hawks from Every Angle* takes hawk identification to new heights. It offers a fresh approach that literally looks at the birds from every angle, compares and contrasts deceptively similar species, and provides the pictures and words needed for identification in the field. Jerry Liguori pinpoints innovative, field-tested identification traits for each species from the various angles that they are seen. Featuring 339 striking color photos on 68 color plates and 32 black and white photos, *Hawks from Every Angle* is unique in presenting a host of meticulously crafted pictures for each of the 19 species it covers in detail: the species most common to migration sites throughout the United States and Canada. All aspects of raptor identification are discussed, including plumage, shape, and flight style traits. For all birders who follow hawk migration and have found themselves wondering if the raptor in the sky matches the one in the guide, *Hawks from Every Angle*, distilling an expert's years of experience for the first time into a comprehensive array of truly useful photos and other pointers for each species, is quite simply a must.

Key Features: The essential new approach to identifying hawks in flight. Innovative, accurate, and field-tested identification traits for each species. 339 color photos on 68 color plates. 32 black and white photos. Compares and contrasts species easily confused with one another and provides the pictures and words needed for identification in the field. Covers in detail 19 species common to migration sites throughout North America. Discusses light conditions, how molt can alter the shape of a bird, aberrant plumages, and migration seasons and sites. User-friendly format.

A Photographic Guide to North American Raptors Brian K. Wheeler, William S. Clark, 1999

Whether soaring or perched, diurnal birds of prey often present challenging identification problems for the bird enthusiast. Variable plumage, color morphs, and unique individual characteristics are just some of the factors bird watchers

must consider when identifying the different species In this authoritative reference two of the world's top experts on raptors provide an essential guide to the variations in the species allowing for easier recognition of key identification points All the distinguishing marks described have been exhaustively tested in a wide range of field conditions by the authors as well as the colleagues and students who have learned from them Key Features The only complete photographic guide to North American diurnal birds of prey Includes all species common and rare Written by well known experts Contains 365 photographs each with an explanatory caption and supporting text describing all 43 species of diurnal raptors found in North America Features 14 discussions of specific problems in practical identification Complete set showing every plumage Raptor I D problem section showing similar species side by side Species List Turkey Vulture Black Vulture California Condor Osprey Hook billed Kite Swallow tailed Kite White tailed Kite Snail Kite Mississippi Kite Bald Eagle Northern Harrier Sharp shinned Hawk Cooper's Hawk Northern Goshawk Common Black Hawk Harris Hawk Gray Hawk Red shouldered Hawk Broad winged Hawk Short tailed Hawk Swainson's Hawk White tailed Hawk Zone tailed Hawk Red tailed Hawk Ferruginous Hawk Rough legged Hawk Golden Eagle Crested Caracara American Kestrel Merlin Aplomado Falcon Gyrfalcon Peregrine Prairie Falcon Crane Hawk Roadside Hawk Hawaiian Hawk Red backed Hawk Steller's Sea Eagle White tailed Eagle Collared Forest Falcon Northern Hobby Common Kestrel

Hawks at a Distance Jerry Liguori, 2011-03-14 The ultimate field manual for identifying distant raptors The ultimate must have guide for identifying migrant raptors Hawks at a Distance is the first volume to focus on distant raptors as they are truly seen in the field Jerry Liguori a leading expert on North American raptors factors in new information and approaches for identifying twenty nine species of raptor in various lighting situations and settings The field guide's nineteen full color portraits 558 color photos and 896 black and white images portray shapes and plumages for each species from all angles Useful flight identification criteria are provided and the accompanying text discusses all aspects of in flight hawk identification including flight style and behavior Concentrating on features that are genuinely observable at a distance this concise and practical field guide is ideal for any aspiring or experienced hawk enthusiast The first guide to focus on distant raptors as they are viewed in the field New information and approaches for identifying distant raptors Illustrates twenty nine species in various lighting situations and settings 558 color photos and 896 black and white images depicting plumage and shape characteristics All aspects of in flight hawk identification including flight style and behavior
