

The relation between the OIE *Terrestrial Manual* and the OIE *Terrestrial Code*

- Although the OIE list of Prescribed and Alternative Tests gives only summary descriptions of the tests (e.g. “ELISA”, or “PCR”) it should not be assumed that all tests under that description are suitable for international movement. Only the method described in the *Terrestrial Manual* should be used, or else a method that has been fully validated to show equivalent performance to the designated Prescribed Test method. “Validation” in this context means compliance with the OIE validation template and the more detailed description in the validation chapter of the *Terrestrial Manual*.
