### **Script-Based Semantics**

Salvatore Attardo, 2020-02-24 The book contains essays in honor of Victor Raskin The contributions are all directly related to some of the major areas of work in which Raskin's scholarship has spanned for decades The obvious connecting idea is the encyclopedic script based foundation of lexical meaning which informs his pioneering work in semantics in the 1970s and 1980s The first part of the book collects articles directly concerned with script based semantics which examine both the theoretical and methodological premises of the idea and its applications Script based semantics is the foundation of both Raskin's ground breaking work in humor research addressed by the articles in part 2 and in Ontological semantics addressed in part 3 the most recent development of script based semantics The fourth part is dedicated to a less known but equally important strand of Raskin's research the applications of linguistics to other fields including writing lexicography and professional applications e.g. tourism Overall the book provides an up to date in depth discussion of an influential strand of the discussion on semantics and its most recent developments and influence on other seemingly unrelated fields such as Cognitive Linguistics

*Humor and Laughter, Playfulness and Cheerfulness: Upsides and Downsides to a Life of Lightness*

Willibald Ruch, Tracey Platt, René T. Proyer, Hsueh-Chih Chen, 2019-08-12 The emergence of Positive Psychology has highlighted the importance of studying the good life and how to attain it Positive life outcomes such as well being thriving flourishing and happiness were discussed and investigated Among them different orientations to happiness were identified such as a life of pleasure life of meaning and life of engagement Other outcomes such as subjective and objective fulfillment in life or societal recognition have been less studied Among the characteristics that facilitate positive outcomes the VIA classification of strengths and virtues distinguishes 24 strengths with humor playfulness being one of them Only a small segment of humor entered the definition of humor as character strengths namely the parts that contain some goodness Humor as a character strength facilitates a lot of positive outcomes such as positive emotions and positive relationships and there is a lightness accompanying humor playfulness The field is broader though and transcends the definition of humor as used in positive psychology in at least two ways First there is actually a family of overlapping but still distinct concepts with different research traditions We include next to humor and types of humor also laughter playfulness and cheerfulness We think that more research is needed on how they do overlap and what makes them distinct Second while positive psychology is interested in the goodness of we do want to stress that there is the need to study the non virtuous parts as well That is laughter may not only be expressing amusement but scorn directed at people humor may be benevolent but there is also sarcasm and playfulness may elicit positive emotions but also risk prone and immature types of behavior Therefore the aim of this Research Topic was to collect current perspectives on humor playfulness laughter and cheerfulness in both adults and children to study their full diversity but also interrelations and overlapping features to introduce new instruments or ways for

their assessment in future studies and to study their causes and consequences in a variety of life domains We encouraged studies on differences due to gender or nationality the embodiment in different groups e g class clowns psychiatric patients or whether or not they can be trained We also welcomed contributions from adjacent disciplines e g education leisure studies or therapy counseling and different regions of the earth The outcome is a set of 33 manuscripts from altogether 101 authors Not all areas are covered and not all aims were met while we made progress there is much left to do In this sense the merging of these topics may be the first milestone but like every milestone it only marks the beginning of a long journey

Good Humor, Bad Taste Giseline Kuipers, 2011-12-22 Good Humor Bad Taste is the first extensive sociological study of the relationship between humor and social background Using a combination of interview materials survey data and historical materials the book explores the relationship between humor and gender age regional background and especially humor and social class in the Netherlands The final chapter focuses on national differences exploring the differences between the American and the Dutch sense of humor again using a combination of interview and survey materials The starting point for this exploration of differences in sense of humor is one specific humorous genre the joke The joke is not a very prestigious genre in the Netherlands even less so than in the US It is precisely this lack of status that made it a good starting point for asking questions about humor and taste Interviewees generally had very pronounced opinions about the genre calling jokes their favorite kind humor but also completely devoid of humor and a form of intellectual poverty Good Humor Bad Taste attempts to explain why jokes are good humor to some bad taste to others The focus on this one genre enables Good Humor Bad Taste to have a very wide scope The book not only covers the appreciation and evaluation of jokes by different social groups and in different cultures and its relationship with wider humor styles It also describes the genre itself the history of the genre its decline in status from the sixteenth century onward and the way the topics and the tone of jokes have changed over the last fifty years of the twentieth century
