Hunting a Psychopath: The East Area Rapist / Original Night Stalker Investigation - The Original Investigator Speaks Out Richard Shelby, 2015-03-27 JUNE 16 2016

At a press conference today in Sacramento the FBI and local law enforcement agencies announced a 50 000 reward for information leading to the arrest and conviction of the East Area Rapist killer along with a nationwide multimedia campaign to once again bring the case to the public s attention *Hunting A Psychopath* chronicles the on going search for the identity of the serial rapist and murderer known both as the East Area Rapist and Original Night Stalker The author first lays the ground work for how the investigation was conducted Then using what reports are still available plus some personal insights he examines each assault in the order they occurred Gradually the methods used by the EAR ONS in first searching out his victims then stalking them come to light The EAR ONS first surfaced in June 1976 in Sacramento CA He was last heard from in May 1986 in Irvine CA where he brutally murdered an eighteen year old woman In between those years he stayed busy assaulting fifty three people and murdering twelve more while spreading a blanket of fear across central CA and parts of Southern CA It has been over thirty years now and still he has not been brought to justice Although there have been other unsolved crimes of this same nature and of even greater magnitude this series seems to have had a lasting impact on the public enough so that a virtual army of private citizens are pursuing this investigation on their own When time permits there are full time police officers who also work this investigation By examining the information from each assault it gradually becomes clear just how meticulous the EAR ONS was Every detail from selecting a victim to the actual assault appear to have been carefully planned and orchestrated The EAR ONS was as devoted to committing sexual assaults and murders as anyone devoted to their own profession In a distorted way he was a professional rapist murderer and quite probably a certifiable psychopath Perhaps this continuing interest is because those wanting to involve themselves in the investigation know it can still be brought to a satisfactory conclusion

Kill God! The Hunt for the Cosmic War Criminal Ranty McRanterson, 2018-02-22 Good old Freddie Nietzsche announced that God is dead. Most of the world obviously didn't get the memo. God seems to be alive and kicking worse than ever. He's in our face. He's out. He's loud, and he's proud. More people believe in God now than at any time in human history. This guy's on a roll. He's a lot more successful than Nietzsche. That's for sure. Freddie said: Success has always been the greatest liar. Sore loser. It's not enough to proclaim God dead. You actually have to go and perform the deed. You have to get your hands dirty. If anyone needs dealing with it, it's God. God is a monster and a mass murderer. He's a war criminal. He's quite simply humanity's deadliest enemy. Just read the Torah, Bible, or Koran. You must strike down the tyrant as Brutus and Cassius did to Caesar. It's time for the HyperHumans to slay the gods and become gods themselves.

Thomas Schramme,2014-08-29 Investigations of specific moral dysfunctions or deficits that shed light on the capacities required for moral agency Psychopathy has been the subject of investigations in both philosophy and psychiatry and yet the conceptual issues remain largely unresolved This volume approaches psychopathy by considering the question of what psychopaths lack The contributors investigate specific moral dysfunctions or deficits shedding light on the capacities people need to be moral by examining cases of real people who seem to lack those capacities The volume proceeds from the basic assumption that psychopathy is not characterized by a single deficit for example the lack of empathy as some philosophers

have proposed but by a range of them Thus contributors address specific deficits that include impairments in rationality language fellow feeling volition evaluation and sympathy They also consider such issues in moral psychology as moral motivation moral emotions and moral character and they examine social aspects of psychopathic behavior including ascriptions of moral responsibility justification of moral blame and social and legal responses to people perceived to be dangerous As this volume demonstrates philosophers will be better equipped to determine what they mean by the moral point of view when they connect debates in moral philosophy to the psychiatric notion of psychopathy which provides some guidance on what humans need in order be able to feel the normative pull of morality And the empirical work done by psychiatrists and researchers in psychopathy can benefit from the conceptual clarifications offered by philosophy
