

Hurst NOW Online Study Guide Check List for NCLEX® RN Success

Complete		Hurst NOW Review Guidelines
First Things First.		Welcome! We know this is an exciting time for you and we are so pleased to be your NCLEX® review company. Stay focused, be dedicated, and get ready to prepare yourself to be a safe, competent, brand new nurse. Ready to get started? Then let's begin! Start by watching the First Things First - Welcome to Hurst NOW video...
Welcome to Hurst NOW		This lecture introduces you to the Hurst NCLEX® Study Plan. All you need is your device – phone, tablet or laptop – and your Student Book when you begin the Core Content. Student Book: Once you receive your student book, complete your student pages as you view each lecture. These fill-in-the-blank student pages are your notes to study after you have watched all the videos, so protect this for safe keeping. Some students like to write in a blue ink pen so that there is a contrast between the questions and the answers. Do what works best for you as you progress with your studying.
NCLEX® Mindset		The NCLEX® is like no other test that you have taken. This lecture prepares you to answer NCLEX® questions using Hurst review specific strategies.
Hurst NOW Study Guide Check List		Review the Study Guide Check List and begin tracking your progress with this form. This will help keep you on track and see how well you are progressing with the materials.
Core Content Lectures		<p>Med-Surg "Must-Know" Core Content Lectures: Watch the lectures in order, as they are listed. The material is integrated, and each lecture builds on the material in the previous lectures. If you watch them out of order, you will miss important information required to critically and multi-logically think. Most lectures are divided into 20-25-minute sections within each topic, so be sure you have allotted this amount of time as you study. All of the videos have  closed captioning available if you would like to use this feature as you watch the lecture. Also, at the end of each lecture, there are activities to guide your studying. These include suggestions for reviewing the material, Content Post Test questions, and ways to use your Obank practice questions – all to help you learn the material without a doubt or hesitation! *(Although the amount of time required to complete this review is based on your study habits and time available, we strongly encourage you to watch all the videos in a timely manner. We suggest that you complete all the core content lectures within a 2-3 week period.)</p> <p>*How to Pass Lecture: The information in this lecture will guide you through the next step with the specialty lectures and instruct you how to study. (You should be able to say the material as we say it and know it without any doubts or hesitations.) The information in this lecture will be the plan for your Intense Study Time so listen closely...</p>

Critical Care Study Guide Gerard J. Criner, Rodger E. Barnette, Gilbert E. D'Alonzo, 2010-06-27 Critical care medicine is a dynamic and exciting arena where complex pathophysiologic states require extensive knowledge and up to date clinical information. An extensive knowledge of basic pathophysiology as well as awareness of the appropriate diagnostic tests and treatments that are used to optimize care in the critically ill is essential. Since our first edition 7 years ago new information crucial to the care and understanding of the critically ill patient has rapidly accumulated. Because this knowledge base crosses many different disciplines a comprehensive multidisciplinary approach presenting the information is essential similar to the multidisciplinary approach that is used to care for the critically ill patient. We have strived to provide this content in an easily digestible format that uses a variety of teaching tools to facilitate understanding of the presented concepts and to enhance information retention. To meet the demand to provide comprehensive and diverse education in order to understand the pathogenesis and optimum care of a variety of critical illnesses we have substantially revised the prior topics in the first edition with updated information. We have also markedly expanded the number of topics covered to include acute lung injury and the acute respiratory distress syndrome an expanded discussion of the physiology and operation of mechanical ventilation obstetrical care in the ICU neurosurgical emergencies acute coronary syndromes cardiac arrhythmias role of whole body rehabilitation in the ICU ethical conduct of human research in the ICU and nursing care of the ICU patient. *A Handbook for Classroom Instruction that Works* Howard Pitler, B.J.
