

Memorandum

Dated: 14 January 2023

To: Sales & Marketing Group

From: Praveenkumar Revankar, Product Engineering

Subject: Delay in release timelines of Feature A and Feature B.

Purpose:

The purpose of this document is to notify the cross-functional group about sudden changes in release timelines of Feature A and Feature B and to reinform the group to reprioritize certain tasks for Sales and Marketing for the release.

Background/Context:

We have been working together on our key USP features 'Feature A' and 'Feature B' for targeting their release this quarter. Due to unforeseen circumstances, there is a change in the release timelines and the new timeline will be shared shortly in Scrum of Scrum meeting where a representative from Sales has been invited.

Action:

Even though it looks like a major setback and current activities w.r.t. The release can be paused, there are certain actions that have to be performed in this quarter. The same has been conveyed in Jira, marking the work items with labels "Q1_Paused" and "Q1_Must." Please reprioritize your internal activities based on the labels in Jira and ensure a final plan reflected in Jira on or before 30 January 2023.

Conclusion:

We might be delayed with the release but we are not affecting the business. The necessary strategy is defined and put in place to ensure customers can solve their problems using our support until Feature A and Feature B release.

Thanks,
Praveenkumar Revankar

Jc Marking Memo:

US-China Naval Co-operation Against the Soviet Union Bruce A. Elleman, 2025-07-25 This book discusses the key role of the transfer of naval technology from the U S to China in building up the Chinese Navy during the Cold War Revealing how this process began in the late 1970s under the Carter Administration when Deng Xiaoping was newly in power and how it accelerated under both the Reagan and Bush administrations moving from the transfer of simple technology to entire naval systems the book highlights how the policy was successful in helping make China a serious threat to the Soviet Union and how it thereby contributed to the collapse of the Soviet Union and the end of the Cold War The book also demonstrates how this same policy also enabled China now with the world s largest navy to become much more assertive in East Asia more widely resulting in the U S reversing its technology transfer policy following the Tiananmen Square massacre and in China turning to Russia and other former Soviet countries including Ukraine for the supply of Soviet era equipment Utilising disclosed and formerly secret documents this book will be a valuable resource to both students and scholars of international relations security studies and naval studies particularly in relation to Chinese U S USSR relations during the Cold War
