

- Never operate the lawnmower with insufficient protection or without safety devices in place, e.g. the grass collector.
- Start the engine carefully, following the instructions. Keep your feet away from the blades.
- Do not tilt the mower when the engine is started, apart from when the mower has to be tilted when starting. If this is the case, it should not be tilted more than necessary, and the part that is furthest away from the operator should be tilted.
- Keep your hands and feet away from the rotating blade and other rotating parts. If there is an ejector opening, never insert your hand into it.
- The blade bar continues to rotate for a short while after the starter handle has been released.
- Never lift or carry the lawnmower while the engine is running.

#### Shut off the engine and pull out the plug:

- When you leave the lawnmower.
- To remove sticks and rubbish or when the discharge has become clogged.
- To check, clean or service the machine.
- When you have driven over a foreign object and want to check whether there is any damage as well as carry out repairs before restarting the mower.
- To check the machine if it begins to vibrate excessively. (Check immediately).
- Always ensure that the cable is kept well away from the blade. If the cable is damaged during mowing, stop the machine immediately and disconnect the plug from the wall socket before checking the cable. A damaged cable should be repaired by a qualified electrician or replaced.

## MAINTENANCE AND STORAGE

- Check that all nuts and screws are tightened so that the machine is in safe working condition.
- Check frequently for wear and damage to the grass collector.
- For the sake of safety, replace worn or damaged parts.
- Thoroughly clean the mower and store it indoors in a dry place. The machine must not be rinsed with water.
- Store the machine so that children cannot get to it.

## ENVIRONMENT

For environmental reasons, we recommend that particular attention is given to the following point:

- When your machine has to be replaced after many years of service or is no longer required, we recommend that it is handed in to your dealer for recycling.

## INSTALLATION

The mower is factory assembled and only requires the upper handle to be unfolded and the grass collector to be assembled and fitted prior to use.

### HANDLE

- Unfold the upper handle and secure in position by tightening the bolts and the large plastic knobs.
- Take care not to trap the cable when folding and unfolding the handle.
