A National Trauma Care System National Academies of Sciences, Engineering, and Medicine,Health and Medicine Division,Board on the Health of Select Populations,Board on Health Sciences Policy,Committee on Military Trauma Care's Learning Health System and Its Translation to the Civilian Sector,2016-10-12 Advances in trauma care have accelerated over the past decade spurred by the significant burden of injury from the wars in Afghanistan and Iraq Between 2005 and 2013 the case fatality rate for United States service members injured in Afghanistan decreased by nearly 50 percent despite an increase in the severity of injury among U S troops during the same period of time But as the war in Afghanistan ends knowledge and advances in trauma care developed by the Department of Defense DoD over the past decade from experiences in Afghanistan and Iraq may be lost This would have implications for the quality of trauma care both within the DoD and in the civilian setting where adoption of military advances in trauma care has become

increasingly common and necessary to improve the response to multiple civilian casualty events Intentional steps to codify and harvest the lessons learned within the military s trauma system are needed to ensure a ready military medical force for future combat and to prevent death from survivable injuries in both military and civilian systems This will require partnership across military and civilian sectors and a sustained commitment from trauma system leaders at all levels to assure that the necessary knowledge and tools are not lost A National Trauma Care System defines the components of a learning health system necessary to enable continued improvement in trauma care in both the civilian and the military sectors This report provides recommendations to ensure that lessons learned over the past decade from the military s experiences in Afghanistan and Iraq are sustained and built upon for future combat operations and translated into the U S civilian system

Governing States and Localities Kevin B. Smith, Alan Greenblatt, 2015-02-23 The recession era days of state reliance on the federal government are waning States and localities are increasingly assertive in seeking independence from Washington's policy priorities Kevin Smith and Alan Greenblatt's proven text employs a comparative approach to show how the geography history political culture institutional structures economic underpinnings and demographics of states and localities both clash and converge in comprehensible telling ways Why does one state pass stricter gun control standards while another loosens them What are the implications of state legalization of marijuana when the federal government still

calls it illegal Governing States and Localities provides students with the tools to begin answering these questions The Fifth Edition features extensive updating on such major developments as the rollout of the Affordable Care Act the education debate over the Common Core State Standards and the implications for residents when localities succumb to bankruptcy

Ebook: Fundamentals of Corporate Finance, Middle East Edition ROSS, STEPHEN,2015-02-16 Ebook Fundamentals of Corporate Finance Middle East Edition **Rapid research in action: Lessons from the field** Ginger A. Johnson,Cecilia

Vindrola-Padros,2023-07-05 **Implementing a Comprehensive Research Compliance Program** Aurali Dade,Lori Olafson,Suzan M. DiBella,2015-07-01 The senior research compliance administrator has emerged as a critically important position as universities and other research organizations face an increasingly intricate regulatory environment These administrators are tasked with a special challenge ensuring that their institutions conduct safe ethical and compliant research while also helping researchers understand and meet compliance requirements and achieve their research goals These competing responsibilities can make the role of the research administrator complex however those who serve in this role may find that they have limited preparation for the challenges and little or no formal education in the field Thus the goal of this handbook is to provide practical guidance to research administrators who are responsible for a wide variety of compliance programs Previous volumes on these topics have focused primarily on educating research faculty staff and students An assumption in many of these handbooks is that all additional questions related to research ethics and regulations should be directed to the senior research administrator yet the books have limited guidance intended for the senior research administrators themselves This handbook is designed therefore to serve as a detailed program implementation manual for these administrators who are expected to be conversant on a broad range of complex ethical and regulatory topics and to provide guidance to those conducting research as well as upper administration and others interested in safe ethical and compliant research *Reflecting on Practice for STEM Educators* Lynn Uyen Tran,Catherine Halversen,2021-05-30

Reflecting on Practice for STEM Educators is a guidebook to lead a professional learning program for educators working in STEM learning environments Making research on the science of human learning accessible to educational professionals around the world this book shows educators how to relate this research to their own practice Educators collective work broadens the scope of an organization s reach and through this effort the organization grows its social capital in its local community and beyond This book offers opportunities to engage in processes that lead toward organizational learning by attending to the professional growth of the educators Tran and Halversen show how learning together can shape the language and meanings by which educators do and talk about their work to support visitors experiences The book provides guidance on how teams of educators can build community as they engage in reflective practice *Reflecting on Practice for STEM Educators* will be essential reading for leaders of any organization that aims to educate and engage the public in science technology engineering and mathematics It will be particularly useful to educators who work in museums zoos
