

*I'm no stranger to contrast. A Chinese American with accented Chinese, a Florida-born Texan, a first-generation American with a British passport: no label fits me without a caveat.*

*But I've always strived to find connections among the dissimilar. In my home across the sea, although my relatives' rapid Mandarin sails over my head, in them I recognize the same work ethic that carried my parents out of rural Shanghai to America, that fueled me through sweltering marching band practices and over caffeinated late nights. I even spend my free time doing nonograms, grid-based logic puzzles solved by using clues to fill in seemingly random pixels to create a picture.*

*It started when I was a kid. One day, my dad captured my fickle kindergartner attention (a herculean feat) and taught me Sudoku. As he explained the rules, those mysterious scaffoldings of numbers I often saw on his computer screen transformed into complex structures of logic built by careful strategy.*

*From then on, I wondered if I could uncover the hidden order behind other things in my life. In elementary school, I began to recognize patterns in the world around me: thin, dark clouds signaled rain, the moon changed shape every week, and the best snacks were the first to go. I wanted to know what unseen rules affected these things and how they worked. My parents, both pipeline engineers, encouraged this inquisitiveness and sometimes tried explaining to me how they solved puzzles in their own work. Although I didn't understand the particulars, their analytical mindsets helped me muddle through math homework and optimize matches in Candy Crush.*

*In high school, I studied by linking concepts across subjects as if my coursework was another puzzle to solve. PEMDAS helped me understand appositive phrases, and the catalysts for revolutions resembled chemical isotopes, nominally different with the same properties.*

*As I grew older, my interests expanded to include the delicate systems of biology, the complexity of animation, and the nuances of language. Despite these subjects' apparent dissimilarity, each provided fresh, fascinating perspectives on the world with approaches like color theory and evolution. I was (and remain) voracious for the new and unusual, spending hours entrenched in Wikipedia articles on obscure topics, i.e. classical ciphers or dragons, and analyzing absurdist YouTube videos.*

*Unsurprisingly, like pilot fish to their sharks, my career aspirations followed my varied passions: one day I wanted to be an illustrator, the next a biochemist, then a stand-up comedian. When it came to narrowing down the choices, narrowing down myself, I felt like nothing would satisfy my ever-fluctuating intellectual appetite.*

*But when I discovered programming, something seemed to settle. In computer science, I had found a field where I could be creative, explore a different type of language, and (yes) solve puzzles. Coding let me both analyze logic in its purest form and manipulate it to accomplish anything from a simple "print 'hello world'" to creating functional games. Even when lines of red error messages fill my console, debugging offered me the same thrill as a particularly good puzzle. Now, when I see my buggy versions of Snake, Paint, and Pacman in my files, I'm filled paradoxically with both satisfaction and a restless itch to improve the code and write new, better programs.*

*While to others my life may seem like a jumble of incompatible fragments, like a jigsaw puzzle, each piece connects to become something more. However, there are still missing pieces at the periphery: experiences to have, knowledge to gain, bad jokes to tell. Someday I hope to solve the unsolvable. But for now, I've got a nonogram with my name on it.*

### **The Mighty Head**

Uditi Mishra ,2022-10-12 **The Mighty Head** by Uditi Mishra is solely based on a teenager's life who had a lot of challenges and obstacles thrown her way while she confronted baldness at the age of 11 This book helps shatter all the stigmas that are present in the society and which give people a hard time in order to confront their true identity The society is a place where people are expected to act a certain way and look a certain way if not then they are never accepted as a whole While Uditi writes this book she deals with all the issues that she faced growing up and explains to people how it's ok to be ok in your own skin and how it is not a requirement to perceive yourself based on what others think you should look like or act like She also talks a lot about Alopecia as a disease and how people who are friends with someone who has a disease which is visible should talk to not make it awkward or uncomfortable for the other person The name **The Mighty Head** originated from Uditi Mishra's Ted talk where she for the first time felt confident in talking about her Alopecia and this title means a lot to her as being a bald girl has been difficult and knowing that stepping foot outside the house and having people stare at you or even ask you questions about your disease is scary because even when you don't try to draw any attention to yourself you still end up doing that because you are a girl and you are bald Therefore **mighty head** signifies how I have felt with a lot of unwanted attention and turned it into something positive

My Common Application Essay: Bestsellers in 2023 The year 2023 has witnessed a remarkable surge in literary brilliance, with numerous engrossing novels captivating the hearts of readers worldwide. Lets delve into the realm of top-selling books, exploring the captivating narratives that have captivated audiences this year. My Common Application Essay : Colleen Hoover's "It Ends with Us" This poignant tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover expertly weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can prevail. Uncover the Best : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This spellbinding historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids absorbing storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. My Common Application Essay : Delia Owens "Where the Crawdads Sing" This mesmerizing coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens crafts a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting. These bestselling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of engaging stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a masterful and gripping novel that will keep you speculating until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
