Foreign Policy After The Cold War Chapter 3section 4:

U.S. Foreign Policy after the Cold War Randall B. Ripley, James M. Lindsay, 2010-11-23 The cold war came to a grinding halt during the astounding developments of 1989 1991 The Berlin Wall fell Eastern European countries freed themselves from Soviet domination and the Soviet Union itself disintegrated after witnessing a failed coup presumably aimed at restoring a communist dictatorship Suddenly the evil empire was no more and U S foreign policy was forever changed This volume explores the revisions to a variety of bureaucratic institutions and policy areas in the wake of these political upheavals

Power and Influence after the Cold War Ann L. Phillips, 2000-05-30 Challenging conventional wisdom about German dominance in the new Europe this study presents a new approach to the question of power and influence after the Cold War Inspired by the debate over German hegemony and drawing on intensive fieldwork Ann L Phillips develops two original cases of German relations with East Central Europe to test competing arguments As she convincingly demonstrates the politics of reconciliation and the activities of German party affiliated foundations illustrate German engagement in the region in its dual faces restraint and projection The author uses the less developed literature on reciprocal influences of domestic politics and the international environment to frame her analysis These two cases provide evidence not only of the intersection of domestic politics and international relations but of when and how one trumps the other Contributing to the theoretical debate Phillips argues that this interplay explains the divergent trajectories bilateral relations have taken since 1990 in ways that more traditional neo realist or liberal approaches could not The author s fresh perspective and new evidence demonstrate that East Central European states play a much greater role in the influence equation than they did in the past

One More "lost Peace"? Raffaele D'Agata, Lawrence Gray, 2011 Were there any missed chances to build a more peaceful world than the present one after the Cold War Were there any attempts at working out a more comprehensive and more cooperative way to overcome it What was precisely at stake during the Cold War What was really at stake for the losers and what stakes did the winners gain if there are any winners at all Those questions were raised during a seminar where some outstanding scholars were invited to discuss them plainly before an audience of young students in an ancient yet peripheral Italian university The result may be seen as a readable concentration of basic and meaningful insights that often defy a noticeable amount of conventional wisdom on the ground of careful and authoritative scholarly research

Theoretical Roots of US Foreign Policy Thomas M. Kane, 2006-09-27 This enlightening new book examines the roots of America s new unilateralism in terms of Machiavelli s theory of state politics

The Use of Force After the Cold War H. W. Brands, 2003 The end of the Cold War created a near euphoria that nations might resort less to military force and that the Doomsday nuclear clock might stop short of midnight Events soon dashed the higher of these hopes but the nature of military force and the uses to which it might be put did appear to be changing In this volume eleven leading scholars apply their particular expertise to understanding what if anything has changed and what has not why the patterns are as they are

and just what the future might bring Together the authors address political moral and military factors in the decision to use or avoid military force Case studies of the Gulf War and Bosnia analyses of the role of women in the armed forces and the role of intelligence agencies and studies of inter branch and inter agency tensions and cooperation inform the various chapters A strong and thoughtful introduction by H W Brands provides the context that ties together the themes and perspectives Scholars in this distinguished collection include Stephen Biddle Alexander L George J Bryan Hehir Andrew Kohut Andrew Krepinevich James M Lindsay Charles Moskos Williamson Murray Bruce Russett Tony Smith and Susan L Woodward The volume will help scholars policy makers and concerned citizens contemplate national alternatives when force threatens

A Failed Empire Vladislav M. Zubok, 2009-02-01 In this widely praised book Vladislav Zubok argues that Western interpretations of the Cold War have erred by exaggerating either the Kremlin's pragmatism or its aggressiveness Explaining the interests aspirations illusions fears and misperceptions of the Kremlin leaders and Soviet elites Zubok offers a Soviet perspective on the greatest standoff of the twentieth century Using recently declassified Politburo records ciphered telegrams diaries and taped conversations among other sources Zubok offers the first work in English to cover the entire Cold War from the Soviet side *A Failed Empire* provides a history quite different from those written by the Western victors In a new preface for this edition the author adds to our understanding of today's events in Russia including who the new players are and how their policies will affect the state of the world in the twenty first century

The Sources Of Russian Foreign Policy After The Cold War Celeste A Wallander, Anne Wildermuth, 2019-07-11 In this timely and pathbreaking volume scholars in comparative politics and international relations build upon earlier theoretical work on the interaction of domestic and international systems applying it innovatively to the study of post Soviet Russian policy and conduct Individual chapters focus on regime type leadership politics interest group politics nationalism as ideology international conflict and threat and international economic opportunities and constraints The complex interplay between domestic and international factors is highlighted Exploring both the origins and the outcomes of Russian policy and behavior this book provides a telling measure of the direction and significance of political change since 1991

Politics Russia Catherine Danks, 2014-01-14 *Politics Russia* provides the most comprehensive accessible and up to date introduction to all aspects of the political development of Russia in the post communist era Writing with the undergraduate student specifically in mind Danks' fluent style and masterly grasp of complex material will make this an indispensable guide for many years to come Divided into five sections *Politics Russia* maps a clear path towards an understanding of Russia and its politics in the twenty first century In Part One the emergence of contemporary Russia is put into context by a consideration of the end of the USSR and the move towards democratization under Gorbachev Part Two provides a clear sighted and stimulating overview of the nature of the executive and the legislature in contemporary Russia Part Three examines civil society the role of the media and the representative process Part Four is focussed on the policy process from foreign and defence policies to the development of domestic social

policies from the provision of healthcare to education Part Five the final provides an overall consideration the contemporary state of Russia examining the development from Yeltsin to Putin to Medvedev and considers the possible futures of the region The book is supported by a host of pedagogical features including Annotated further reading lists Definitions of key political terms Short biographies of key figures

After the End James M. Scott, 1999-01-21 In the political landscape emerging from the end of the Cold War making U S foreign policy has become more difficult due in part to less clarity and consensus about threats and interests In *After the End* James M Scott brings together a group of scholars to explore the changing international situation since 1991 and to examine the characteristics and patterns of policy making that are emerging in response to a post Cold War world These essays examine the recent efforts of U S policymakers to recast the roles interests and purposes of the United States both at home and abroad in a political environment where policy making has become increasingly decentralized and democratized The contributors suggest that foreign policy leadership has shifted from White House and executive branch dominance to an expanded group of actors that includes the president Congress the foreign policy bureaucracy interest groups the media and the public The volume includes case studies that focus on China Russia Bosnia Somalia democracy promotion foreign aid and NAFTA Together these chapters describe how policy making after 1991 compares to that of other periods and suggest how foreign policy will develop in the future This collection provides a broad balanced evaluation of U S foreign policy making in the post Cold War setting for scholars teachers and students of U S foreign policy political science history and international studies Contributors Ralph G Carter Richard Clark A Lane Crothers I M Destler Ole R Holsti Steven W Hook Christopher M Jones James M McCormick Jerel Rosati Jeremy Rosner John T Rourke Renee G Scherlen Peter J Schraeder James M Scott Jennifer Sterling Folker Rick Travis Stephen Twing

Foreign policy in Comparative Perspective: Domestic and International Influences on State Behavior Ryan K. Beasley, 2013 In this much anticipated revision of their unique text the editors bring together fifteen top scholars to highlight the importance of both internal and external forces in foreign policymaking

Indonesia's Foreign Policy and Grand Strategy in the 21st Century Vibhanshu Shekhar, 2018-03-14 This book examines the changes in Indonesian foreign policy during the 21st century as it seeks to position itself as a great power in the Indo Pacific region The rise of 21st century Indonesia is becoming a permanent fixture in both the domestic and global discourses Though there has been an increasing level of discussion on Indonesia's emerging power status there has been little discussion on how the country is debating and signalling its new found status This book combines the insights of both neo classical realism and social identity theory to discuss a reset in an emerging Indonesia's foreign policy during the 21st century while emphasizing domestic drivers and constraints of its international behaviour There are three key organizing components of the book emerging power status signalling and the Indo Pacific region The Indo Pacific region constitutes a spatial framing of the book the emerging power provides an analytical category to explain Indonesia's changing international status and status signalling explains multiple facets of international behaviour through which the country is projecting its new status Though leaders are adding different styles and characteristics to the rising Indonesia narrative there are a few unmistakable overarching trends that highlight an increasing correlation between the country's rising power and growing ambition in international behaviour This book is built around four key signalling strategies of Indonesia as an emerging power expanded regional canvas power projection leadership projection and quest for great power parity They represent Indonesia's growing desire for a status consistent behaviour its response to the prevailing strategic uncertainty in the Indo Pacific region and its attempt to advance its strategic interests This book will be of much interest to students of South East Asian politics strategic studies international diplomacy security studies and IR in general

In Uncertain Times Melvyn P. Leffler, Jeffrey W. Legro, 2011-05-15 In *Uncertain Times* considers how policymakers react to dramatic developments on the world stage Few expected the Berlin Wall to come down in November 1989 no one anticipated the devastating attacks on the World Trade Center and the Pentagon in September 2001 American foreign policy had to adjust quickly to an international arena that was completely transformed Melvyn P Leffler and Jeffrey W Legro have assembled an illustrious roster of officials from the George H W Bush Clinton and George W Bush administrations Robert B Zoellick Paul Wolfowitz Eric S Edelman Walter B Slocombe and Philip Zelickow These policymakers describe how they went about making strategy for a world fraught with possibility and peril They offer provocative reinterpretations of the economic strategy advanced by the George H W Bush administration the bureaucratic clashes over policy toward the breakup of the USSR the creation of the Defense Policy Guidance of 1992 the expansion of NATO the writing of the National Security Strategy Statement of 2002 and the invasion of Iraq in 2003 A group of eminent scholars address these same topics Bruce Cumings John Mueller Mary Elise Sarotte Odd Arne Westad and William C Wohlforth probe the unstated assumptions the cultural values and the psychological makeup of the policymakers They examine whether opportunities were seized and whether threats were magnified and distorted They assess whether academicians and independent experts would have done a better job than the policymakers did Together

policymakers and scholars impel us to rethink how our world has changed and how policy can be improved in the future

After the Cold War Alpo M. Rusi, 1991-05-31 This book provides new and exceptional interpretations in regard to the post World War 2 history of the East West conflict and calls for interdisciplinary approaches in analyzing international relations The systematic and political processes are undoing the division of Europe and restoring an organically interdependent continent The events of 1989 in Eastern Europe are but a harbinger of a new security order in Europe and for the first time since the Treaty of Westphalia of 1648 Europe tries to look beyond state centered concepts of security **A**

Concise History of U.S. Foreign Policy Joyce P. Kaufman, 2006 A Concise History of U S Foreign Policy offers a conceptual and historical overview of American foreign relations from the founding to the present Joyce Kaufman clearly explains major themes in foreign relations and places the evolution of policy decisions within the context of the international situations and domestic priorities **Mao's China and the Sino-Soviet Split** Mingjiang Li, 2013-03-01 The Sino Soviet split in the 1960s

was one of the most significant events of the Cold War Why did the Sino Soviet alliance hailed by its creators as unbreakable eternal and as representing brotherly solidarity break up Why did their relations eventually evolve into open hostility and military confrontation With the publication of several works on the subject in the past decade we are now in a better position to understand and explain the origins of the Sino Soviet split But at the same time new questions and puzzles have also emerged The scholarly debate on this issue is still fierce This book the result of extensive research on declassified documents at the Chinese Foreign Ministry and on numerous other new Chinese materials sheds new light on the problem and makes a significant contribution to the debate More than simply an empirical case study by theorising the concept of the ideological dilemma Mingjiang Li s book attempts to address the relationship between ideology and foreign policy and discusses such pressing questions as why it is that an ideology can sometimes effectively dictate foreign policy whilst at other times exercises almost no significant influence at all This book will be of essential reading to anyone interested in Chinese Soviet history Cold War history International Relations and the theory of ideology **Japan's Foreign Policy After the Cold War**

G.L. Curtis, 2016-09-16 A documentation of the impact of recent changes in the international system of Japan s foreign policy Chapters include diplomatic style the thrust for economic success the search for security and the impact of international relations with neighbouring countries **Korea's Foreign Policy Dilemmas** Sung-Hack Kang, 2010-12-13 Koreans

historically consider their country as a victim of foreign powers sometimes seeing themselves as a shrimp among whales In fact Korea s national status has to a great extent been determined by the historical rivalries between the great powers This collection of essays produced over time by one of Korea s leading political scientists probes many of the fundamental post Korean War issues South Korea has wrestled with in the context of its foreign policy positions not least the question of how it actually defines its foreign policy its relationship with the United States and the ever present security issues Other essays examine the role of the US on the Korean peninsula after the end of the Cold War what policy directions South Korea should

take towards North Korea what is North Korea's security policy and what are the conditions for reunification This thought provoking volume provides a valuable overarching framework towards a more informed understanding of how South Korea's relationship with the outside world has evolved in the twentieth century and the manner in which it is likely to do business in the twenty first

A Ruined Fortress? Alan W. Cafruny, Magnus Ryner, 2003-06-28 This challenging book argues convincingly that research on European integration has lagged behind important theoretical developments in the fields of international relations international political economy and international organization The contributors contend that prevailing theories of integration despite their considerable differences all suffer from an excessive focus on institutions and ideas while overlooking the ways in which these institutions and ideas have promoted a neoliberal agenda during the last decade To overcome these weaknesses this volume draws on one of the key strands of theoretical innovation critical political economy or transnational historical materialism to develop a more comprehensive and consistent analysis of processes of European integration Although not claiming that states have ceded their role as masters of the treaties the contributors develop innovative case studies of national and transnational processes to illustrate the salience of trans European business networks and the primacy of neoliberalism as central organizing concepts of the post Maastricht European project
