Forensic Evaluation And Treatment Of Juveniles Innovation And Best Practice:

Forensic Evaluation and Treatment of Juveniles Randall T. Salekin, 2015 Psychologists have always played a key role in determining how the juvenile justice system assesses and treats young offenders Recent neuropsychological findings shows that there are important developmental differences between juvenile offenders such as varying levels of maturity risk potential and amenability to treatment not to mention individualized personality traits and possible mental disorders Psychologists must therefore strive for targeted rehabilitation services to avoid unfair treatment and redirect youth to healthier life choices This book is a practical guide that will help psychologists answer important psycho legal questions to properly assess and treat juvenile offenders These guidelines primarily focus on disposition evaluations which describe adolescent offenders and paths to rehabilitation and transfer evaluations which determine whether juveniles should be moved to adult courts Psychological assessments can greatly influence a judge s decision so this book will help forensic clinicians consider important external factors such as local laws and the political climate and present assessment data to judges in a thorough understandable manner This book will also be valuable for attorneys judges criminologists and legal scholars who want to understand the psychological science behind juvenile assessment

Learning Forensic Assessment

Rebecca Jackson, Ronald Roesch, 2015-10-05 Major developments in the field since the publication of Learning Forensic Assessment are integrated in this revised edition including revised editions of the DSM 5 HCR 20 scale and child custody guidelines This textbook is designed for graduate students learning forensic assessment and psychologists coming to forensic practice later in their careers It is organized around five broad areas Professional and Practice Issues Adult Forensic Assessment Juvenile Forensic Assessment Civil Forensic Assessment and Communicating Your Findings Each chapter begins with a strong teaching and learning foundation The latter part of each chapter is assessment specific covering available assessment measures and approaches to assessment The authors go well beyond simple descriptions of assessment measures and provide a conceptual discussion of the evaluation process that helps the reader understand how assessment measures fit into the overall evaluation process The evaluation component is geared toward assessing the important aspects of the construct as laid out in the early part of each chapter Each chapter then concludes with a case example to illustrate the measures and techniques described

From Retribution to Public Safety William R. Kelly, 2017-05-25 Over the past fifty years American criminal justice policy has had a nearly singular focus the relentless pursuit of punishment Punishment is intuitive proactive logical and simple But the problem is that despite all of the appeal logic and common sense punishment doesn't work The majority of crimes committed in the United States are by people who have been through the criminal justice system before many on multiple occasions There are two issues that are the primary focus of this book The first is developing a better approach than simple punishment to actually address crime related circumstances deficits and disorders in order to change offender behavior reduce recidivism victimization and cost And the second issue is how do we do a better job of determining who should be diverted and who should be criminally prosecuted *From Retribution to Public Safety* develops a strategy for informed decision making regarding criminal prosecution and diversion The authors develop procedures for panels of clinical experts to provide prosecutors with recommendations about diversion and intervention This requires a substantial shift in criminal procedure as well as major reform to the public health system both of which are discussed in detail Rather than ask how much punishment is necessary the authors look at how we can best reduce recidivism In doing so they develop a roadmap to fix a fundamentally flawed system that is wasting massive amounts of public resources to not reducing crime or recidivism
