assessment 5 strategic teacher questioning and 6 engaging students in asking effective questions Using specific examples based on their extensive work with teachers the authors provide Strategic talking points and conversation starters to address common misconceptions about formative assessment Practical classroom strategies to share with teachers Ways to model the elements of formative assessment in conversations with teachers about their professional learning What if scenarios and advice for how to deal with them and Questions for reflection to gauge understanding and progress As Moss and Brookhart emphasize the goal is not to do formative assessment but to embrace a major cultural change that moves away from teacher led instruction to a partnership of intentional inquiry between student and teacher with better teaching and learning as the outcome
