

FOUR THREAD OVERLOCK UPPER LOOPER THREADING

Open front cover. Raise the presser foot.

Bring the upper looper to its highest position by turning the handwheel toward you. Pull thread from spool and lay it into slot (1) on the top of the thread stand (front to back) dropping the thread over the back. The end of the thread will come back to the front automatically because of the twist in the thread guides on the top of the thread stand.

Next, bring thread down and snap into thread clip guide (2). It is easiest to snap into clip by pulling thread toward back and front of Huskylock at the same time (like flossing) until the thread snaps into place.
NOTE: Use decorative thread guides instead of thread clip guides when using heavy or decorative threads.

With the presser foot raised to release thread tensions, lay thread between thread tension discs (3). Be sure thread is seeded all the way into the tension discs by snapping into discs.

Continue to thread in order, through guides as illustrated to right and inside front cover of your Huskylock.

Thread the eye of the Upper Looper (4) using the tweezers provided. Pull a 4" - 5" (10cm) thread tail out. Bring thread tail under foot and toward back left corner of Huskylock.

NOTE: For all sewing except two-thread sewing, set the 2-thread converter as illustrated to right.
