Functions within the scope of cargo handling operations include:

- Cargo and mail acceptance;
- Cargo and mail handling;
- ULD loading/build-up;
- Application of required security measures.

The loading of cargo into the aircraft is addressed in Section 6, Ground Handling Operations (GRH).

Where an operator outsources the performance of functions within the scope of cargo operations to external service providers, the operator retains overall responsibility for such functions, and must demonstrate processes for monitoring applicable external service providers in accordance with CGO 1.10.2.

Security specifications applicable to functions within the scope of cargo operations are located in Section 8 of this manual.
