

## Module 6

### Descriptive, Normative, and Cause-Effect Evaluation Designs

#### Introduction

After you determine your evaluation questions, you will select evaluation design features or approaches that are most appropriate given each question and situation. This module presents some guidelines, along with the strengths and weaknesses of various approaches, but it is important to keep in mind that every situation is unique. There is no "one and only" way to meet every evaluation situation.

This module has five topics. They are:

- What is Evaluation Design?
- Connecting Questions to Design
- Design Elements
- Types of Designs for Cause-Effect Evaluations
- Key Points about Design.
