

Matthew Arnold : The Function of Criticism at the Present Time

Matthew Arnold's essay, "The Function of Criticism at the Present Time" was published in his first collection of critical writings, *Essays in Criticism*, in 1865. Prior to the publication of these essays, Arnold had just completed some lectures on the translation of Homer-works which bear, in a less developed form, some of Arnold's ideas on the need for new, intelligent criticism in England.

"The Function of Criticism at the Present Time" thus seems a bit of a turning point in Arnold's career; by the time Arnold began writing *Culture and Anarchy*, he had turned away from his career as a poet to focus on social and theological writings. The project which Arnold began with this essay-to make the reading, middle-class public of England understand the need for a critical spirit in order to provide society with fresh, intelligent ideas-would occupy him fully and it is for this new direction which Arnold takes that would make Arnold interesting to generations after him.

The central argument of the essay responds to what Arnold felt to be the prevailing attitude that the **constructive, creative capacity** was much more important than the **critical faculty**. Arnold's expanded definition of criticism, however "the endeavour, in all branches of knowledge, theology, philosophy, history, art, science, **to see the object as in itself it really is**" renders criticism a necessary prerequisite for truly valuable creation. Specifically, criticism is what generates "fresh" and "intelligent" ideas during a specific time and place in history, and Arnold claim that since literature works with current ideas (literature is "synthesis and exposition"), great works can only be generated in a climate of great ideas. Thus, Arnold argues that **criticism prepares the way for creation**.

And yet he argues that social identities aren't something we can simply do away with. They can usher in moral progress and bring significance to our lives by connecting the small scale of our daily existence with larger movements, causes, and concerns. Elaborating a bold and clarifying new theory of identity, *The Lies That Bind* is a ringing philosophical statement for the anxious conflict-ridden twenty-first century. This book will transform the way we think about who and what we are.

REAL - Yearbook of Research in English and American Literature, Volume 38 Laura Bieger, Johannes Völz, 2024-04-29
Celebrating the 80th birthday of Winfried Fluck, this volume of *REAL* gathers leading US American and European literary scholars from English and American Studies to engage some of his classic essays covering topics that range from the aesthetics of early American literature to the history of our digital present and from the Americanization of literary studies to the search for American democratic culture. Each of the volume's twelve dialogues consists of a republished essay by Fluck and a response by one of his interlocutors written specifically for this occasion. Contributors include field-defining scholars, long-time companions and colleagues whose intellectual trajectory has been impacted by Fluck's incisive metacriticism and his reception-oriented approach to literary and cultural history. The twelve dialogues reassess debates that have shaped literary studies in the late twentieth century and they inquire into the paradigmatic shifts that are currently reorganizing the field.
