

# NETGEAR

Cable/DSL Wireless Router WNR3500 v2

## Installation Guide

Follow these quick steps to install your router.

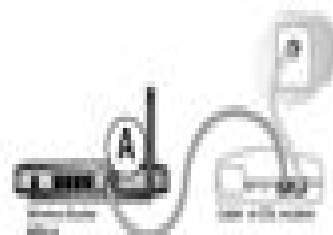

Before you begin, locate the broadband Internet configuration settings from your cable company. You can also consult the Install Assistant on the *GetNet*™ CD for Wireless Routers.

### 1 Connect the Router

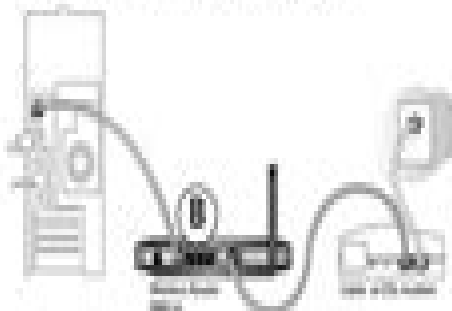

- Turn off your computer and cable or DSL modem.
- Disconnect the Ethernet cable from your computer (A) which connects to your cable or DSL modem.

- Connect the Ethernet cable from your cable or DSL modem to the Internet port (A) on the WNR3500.

- Connect the Ethernet cable which came with the router from a Local port on the router (B) to your computer.

- Turn on the cable or DSL modem and wait about 30 seconds for the lights to stop blinking.
- Now, turn on your computer. If software usually logs you in to your Internet connection, do not run that software or cancel it if it starts automatically.

- Verify the following:

- When you turn the router on, the power light goes on.
- The local lights are lit for any connected computers.
- The Internet light is lit, indicating a link has been established to the cable or DSL modem.

**Note:** For wireless placement and range guidelines, and wireless configuration instructions, please see the *Reference Manual* on the *GetNet* CD for Wireless Routers.

### 2 Log in to the Router

**Note:** To connect to the router, your computer needs to be configured to obtain an IP address automatically via DHCP. For instructions on how to do this, please see Appendix C in the *Reference Manual* on the *GetNet* CD for Wireless Routers.

- Connect to the router by typing `http://192.168.1.1` in the address field of Internet Explorer or Netscape® Navigator.

- For security reasons, the router has its own user name and password. When prompted, enter **admin** for the router user name and **password** for the router password, both in lower case letters.

**Note:** The user name and password are not the same as any user name or password you may use to log in to the Internet.

### 3 Connect to the Internet

Internet Wizard

The Internet Wizard will guide you through the steps to connect your router to the Internet.

Do you want the Internet Wizard to help you connect to the Internet?

☐ Yes

☐ No, I want to configure the router manually.

- You are now connected to the router. If you do not see the router shown, click the **Setup Wizard** link on the upper left of the main screen.
- Click **Next** to follow the steps in the Setup Wizard to input the router configuration settings. See the *Quick ISP Guide* for help with identifying your ISP settings.
- At the end of the Setup Wizard, click the **Test** button to verify your Internet connection and register your product.

**Note:** If you were unable to connect to the router, please refer to "Basic Functioning" in the "Troubleshooting" chapter of the *Reference Manual* on the *GetNet* CD for Wireless Routers.

# Mr814 Netgear Manual

**Chao Zhang**

**Mr814 Netgear Manual:**

As recognized, adventure as without difficulty as experience just about lesson, amusement, as with ease as conformity can be gotten by just checking out a books **Mr814 Netgear Manual** also it is not directly done, you could bow to even more vis--vis this life, almost the world.
