Multiple Choices Of Latin American Course:

Catalog United States Armed Forces Institute, 1971 *The Road to Home* Vartan Gregorian, 2008-06-30 Vartan Gregorian's tale starts with a childhood of poverty deprivation and enchantment in the Armenian quarter of Tabriz Iran. As the world reeled from depression into six years of warfare his mother died leaving his grandmother Voski as the loving staff of his life. Through unlettered example and instruction he learned about the first of his many worlds: the strenuousness required for survival; the fairy tale that explained existence; the place and name of his own star in the night sky; how to maneuver as a member of a Christian minority in a benevolent Muslim kingdom; the beauty and inspiration of Armenian Church liturgy; the exciting foreign world of ten-year-old American westerns; the richness of life on the streets. He learned the magic of the innumerable worlds he could find in books and he wanted to visit them all. As the spell books cast on him grew more powerful so did the constraints imposed by his father's indifference to his dreams of redirecting his life through learning. So one day when he was fifteen years old he presented himself at an Armenian French lycee in Beirut Lebanon to start the arduous task of becoming a person of learning and consequence. This book tells not only how he reached that school but also about the many people who guided, supported, taught and helped him on an extravagantly absorbing and varied journey from Tabriz to Beirut to Palo Alto to Tenaflly to London from Stanford University to San Francisco State University to the University of Texas at Austin to the University of Pennsylvania to the New York Public Library to Brown University and currently to the presidency of Carnegie Corporation of New York. With witty stories and memorable encounters Dr. Gregorian describes his public and private lives as one education after another. He has written a love story about life.

Hispanic Nation Geoffrey E. Fox, 1996 A new ethnic identity is being constructed in the United States: the Hispanic nation. Overcoming age-old racial, regional and political differences, Americans of Mexican, Puerto Rican, Cuban and other Spanish language origins are beginning to imagine themselves as a single ethnic community which by the turn of the century may become the United States' largest and most influential minority. Only in recent years have great numbers of Hispanics begun to consider themselves as related within a single culture. Hispanics are redefining their own images and agendas, shaping a population and paving wider pathways to power. In the process they are changing both themselves and the culture, government and urban habits of the communities around them. In this ground-breaking book Geoffrey Fox shows how and why Hispanics are changing the United States. Based on interviews, observations and extensive research, *Hispanic Nation* examines why such diverse people are imagining themselves as one; the politics of turning a statistical fiction into a social reality; the impact of the Spanish language media on Hispanics' self-images; ethnic consciousness and political movements; Cesar Chavez and the farm workers movement; the Young Lords; and La Raza Unida. Puerto Rican and Mexican encounters in the Midwest; controversies surrounding high and popular Hispanic/Latino art, music and literature; and the institutionalization of the movement everywhere from local school boards to the U.S. Congress.
