Jones, 2004-12-30 A companion volume to *Immigrants and the American Experience* 1999 this book covers American public library services to immigrants from 1876 to 2003 As such it provides an excellent text on public library services to diverse groups and multiculturalism in public libraries It presents a detailed exposition of immigration law accompanied by an analysis of laws affecting libraries These legislative activities are placed in the context of library practice and the library profession treating fully developments within ALA and the government agencies tasked with the funding and oversight of libraries *Handbook of Race-Ethnicity and Gender in Psychology* Marie L. Miville, Angela D. Ferguson, 2014-02-06 Multicultural aspects of psychology have received some attention in the literature in the last decade A number of texts currently address these significant concerns for example *Counseling the Culturally Different* Sue *Handbook of Multicultural Counseling* Poterotto et al 2009 and *Handbook of Multicultural Counseling Competencies* Pope Davis Coleman 2005 In their most recent editions several of these books address more nuanced complexities of diversity for example the intersections of gender or social class with race ethnicity Meanwhile other texts have addressed gender issues in psychology *Handbook of Counseling Women* *Counseling Men* with some attention paid to racial ethnic and other diversity concerns Clearly the progression of scholarship in this field reflects the importance of incorporating multiple aspects of diversity within psychology However no book currently exists that fully addresses the complexities of race ethnicity and gender together Better understanding of the dual impact of race ethnicity and gender on psychological functioning may lead to more effective conceptualizations of a number of mental health issues such as domestic violence addictions health related behaviors and achievement Exploring the impact of race ethnicity and gender also may provide a broader understanding of self in community as this affects individuals families and other social groups and work and career development Topics of interest may include identity development worldviews and belief systems parenting styles interventions for promoting resilience and persistence and strategies for enhancing more accurate diagnostic and treatment modalities Today's world is comprised of multiple and intersecting communities that remain in need of psychological models and interventions that support and promote both individual and collective mental health We believe that utilizing unidimensional conceptual models e.g focusing solely on race ethnicity or

gender no longer adequately addresses psychological concerns that are dynamic complex and multi faceted The proposed Handbook will focus on timely topics which historically have been under addressed for a number of diverse populations

Epstein,2008-09-15 With *Inclusion* Steven Epstein argues that strategies to achieve diversity in medical research mask deeper problems ones that might require a different approach and different solutions Formal concern with this issue Epstein shows is a fairly recent phenomenon Until the mid 1980s scientists often studied groups of white middle aged men and assumed that conclusions drawn from studying them would apply to the rest of the population But struggles involving advocacy groups experts and Congress led to reforms that forced researchers to diversify the population from which they

drew for clinical research While the prominence of these inclusive practices has offered hope to traditionally underserved groups Epstein argues that it has drawn attention away from the tremendous inequalities in health that are rooted not in biology but in society Epstein s use of theory to demonstrate how public policies in the health profession are shaped makes this book relevant for many academic disciplines Highly recommended Choice A masterful comprehensive overview of a wide terrain Troy Duster Biosocieties Latino Access to Higher Education Martin Guevara Urbina, Claudia Rodriguez Wright, 2015-10-01 While the black and white racial experience has been delineated over the years the ethnic realities of Latinos have received minimal attention Therefore with Latinos projected as the upcoming U S population majority the central goal of this book is to document the Latino experience in the world of academia focusing primarily but not exclusively on first generation Latino students in higher education delineating the dynamics of the educational journey while situating their experiences within the ethnic community the overall American society and the international community The text focuses on 1 ethnic realities including Latino student access to higher education retention graduation rates and career success 2 analysis of historic trends 3 extensive review of prior empirical studies 4 a holistic portrayal of education in the U S 5 a qualitative study conducted in an institution of higher education in Texas placing the stories of participating Latino students in theoretical context 6 vivid documentation of historically entrenched racial ideologies in American education 7 exploration of potential solutions to historical and contemporary barriers confronting Latino students 8 development of a model of empowerment for Latino students 9 information for the establishment of a balanced educational system 10 accountability of higher education institutions 11 review of revolutionizing education in the midst of current globalization and 12 venturing into the future of Latino education in the overall American experience Finally the book seeks to examine not only America s racism that is evident but also the structural cultural and ideological forces that have influenced and continue to perpetuate the current educational situation for Latinos
