to watch out for along the way *Value-driven Management for International Development and Aid Projects* Firas Izzat Mahmoud Saleh, Noorliza Karia, 2024-07-13 This book provides practical guidance on managing international development and aid projects for sustainability and lasting impact on the lives of vulnerable people around the globe Successful management of International development and aid projects is vital for the lives of people and communities in vulnerable contexts Given its significance the authors propose an adaptive project management model integrating the Core Humanitarian Standards and Total Quality Management practices based on the practical experience of a group of experts and practitioners in this industry This book is a valuable read for leaders of international non governmental organizations managers of international development projects practitioners in the non profit industry and academics and students in the non profit management field *Introduction to International Disaster Management* Damon Coppola, 2020-09-16 Introduction to International Disaster Management Fourth Edition offers an unbiased global perspective for students and practitioners alike It provides a comprehensive understanding of the disaster management profession covering the varied sources of risk and vulnerability the systems that exist to manage hazard risk and the many different stakeholders involved from individuals to global organizations This text also serves as a reference on scores of disaster management topics including various technological and intentional hazards on international disaster management structures and systems on global humanitarian spending and support and much more Taking a real world approach with considerable illustration through case studies and recent and historical disaster events this book prepares students interested in joining the disaster management community to understand the work they will be doing In addition it assists those who already work with the disaster management community by helping them better navigate this complex environment Includes sections on the Ebola epidemic the Nepal Earthquake the 2015 2016 Western U S Wildfires the Indonesia Palm Oil Fires Hurricanes Harvey Irma and Maria the Mexico City Earthquake emerging hazards like trash avalanches and more Provides a valuable introduction on the groundbreaking Sendai Framework for Disaster Risk Reduction 2015 2030 signed in March of 2015 along with an explanation of the relationship of this effort to Sustainable Development Goals and the Paris Agreement Explores the importance of global disaster risk reduction Covers key terms and chapter summaries as well as instructor resources support learning and instruction *Risk Management for Maize Farmers in Drought Prone Areas of Southern Africa* ,1999 THE NONPROFIT RISK BOOK Jesse Feiler, Gail B. Nayowith, 2017-11-07 The Nonprofit Risk Book guides you through the process of finding managing and mitigating risks that sap your nonprofit organization s time finances and resources The book will lead you through a systematic process of evaluating what you know best your organization and its operations You will learn how to build a list of risks and evaluate each one for its likelihood and impact After assigning a priority to each risk based on its severity and determining the resources needed to address it you will be able to create a risk register From this you will be able to plan mitigation actions to address each risk and set dates for mitigation plan review and completion Learn how to use

the tools nonprofit leaders need to manage risk in programs and other operations Sustainable Management of Transnational Megaprojects Dario Cottafova, Daniel Torchia, Stefania Camoletto, Laura Corazza, 2024-04-04 This book analyses the seminal role of megaprojects for sustainable development and the related complex challenges they bring It provides insights into the growing social responsibilities that megaprojects have not only to be environmentally sustainable but also towards the multitude of stakeholders involved whether directly or indirectly After an historical overview of the increasingly necessary links between sustainable infrastructure and megaprojects the book builds on and applies stakeholder theory to stakeholder engagement and management in megaprojects It also emphasizes the importance of building impact assessment frameworks that consider the unheard voices that are often passively sitting at the receiving end of a megaproject as well as the local context where the megaproject is embedded The book then proceeds to analyse the case of a very contested transnational railway megaproject between Italy and France the Turin Lyon high speed railway which has been suffering from stakeholder and communication issues for over thirty years as well as from notable managerial and legal differences in the two countries In this way the book informs both theory and practice and encourages scholarly interventions into wicked problems It contains a comprehensive review of the academic literature on the sustainability sustainability challenges and sustainability reporting of megaprojects Conceptual models frameworks and future research opportunities are provided to clarify the empirical challenges and highlight the gaps and opportunities to be explored by researchers and practitioners in future The audience for the book is both academic researchers and practitioners in the field of megaprojects and more specifically those dealing with managing transnational megaprojects It also includes several topics that will be of interest to policy and decision makers *The Europa International Foundation Directory 2023* Europa Publications, 2023-07-27 This fully revised directory of international foundations trusts charitable and grantmaking NGOs and other similar non profit institutions provides a comprehensive picture of foundation activity on a worldwide scale Now in its 32nd edition The Europa International Foundation Directory includes Information on some 2 700 organizations organized by country or territory including details of funding priorities and projects geographical area of activity principal staff and contact details Details of co ordinating bodies and centres that assist foundations grantmaking organizations and other NGOs Bibliography Comprehensive index section This new edition has been revised and expanded to include the most comprehensive and up to date information on this growing sector **Sustainability Accounting and Accountability** Jan Bebbington, Jeffrey Unerman, Brendan O'Dwyer, 2014-06-05 The management and balancing of social environmental and economic sustainability is one of the most complex and urgent challenges facing both private and public sector organizations today with these challenges of sustainability posing many risks to and many opportunities for advancing the aims and performance of organizations Accounting and accountability processes and practices provide key tools to help organizations to more effectively identify and manage the risks and opportunities of sustainability Popular features from the first edition are

retained whilst recent developments in theory and practice are accounted for New substantive chapters on water resource accounting carbon accounting and decision making have been introduced and the book continues to benefit from a host of expert contributors from around the world including Jesse Dillard Rob Gray Craig Deegan This comprehensive and authoritative textbook will continue to be a key resource for students of accounting and sustainability as well as being a vital tool for researchers Conflict-sensitive Approach to Infrastructure Development Merriam Mashatt,2008 **Concise**

Encyclopedia of Corporate Social Responsibility Lee Matthews,Lara Bianchi,Claire Ingram,2024-01-18 This Concise Encyclopedia is an interdisciplinary overview of the field of Corporate Social Responsibility CSR It not only incorporates well established concepts proffered by highly influential voices but also captures the perspectives of tomorrow **Citizen**

Science: Reducing Risk and Building Resilience to Natural Hazards Jonathan D. Paul,David M. Hannah,Wei Liu,2020-01-17 *Disaster Risk Management in Asia and the Pacific* Ian Davis,2014-09-04 This book uses two international frameworks the Millennium Development Goals and the Hyogo Framework for Action a program focused on disaster risk management to study the key trends in the region in terms of disaster incidence sources of vulnerability and social and economic challenges As both frameworks draw to a close international debate is taking place during the period 2012 2015 on their current progress This book seeks to help readers understand the process better The chapters are written by eight independent internationally based authors Collectively they have extensive regional experience in the areas of disaster risk management and climate change as well as working in academia research consultancy the UN and international agencies government and the NGO sector The analysis presented benefits from their varied backgrounds in medicine architecture economics engineering planning social studies development studies and political science Throughout the book relevant examples drawn from the region are included to earth the project in the harsh realities of risk and disaster impact

Commodity Risk Management Geoffrey Poitras,2013-03-05 Commodity Risk Management goes beyond just an introductory treatment of derivative securities dealing with more advanced topics and approaching the subject matter from a unique perspective At its core lies the concept that commodity risk management decisions require an in depth understanding of speculative strategies and vice versa The book offers readers a unified treatment of important concepts and techniques that are useful in applying derivative securities in the management of risk in commodity markets While some of these techniques are well known and fairly common Poitras offers applications to specific situations and links to speculative trading strategies extensions of the material that not only are hard to come by but helpful to both the academic and the practitioner The book is divided into three parts The first part deals with the general framework for commodity risk management the second part focuses on the use of derivative security contracts in commodity risk management and the third part deals with applications to three specific situations As a textbook this book is designed to appeal to classes at a senior undergraduate MBA MA level of training in Finance financial economics actuarial science management science agriculturaleconomics and

accounting There will also be interest for the book as a monograph for research libraries a handbook for individuals working in the commodity risk management industry and a guidebook for those in the general public interested in topics like farm risk management or the assessment of hedging practices of publicly traded commodity producers
