How are global and transnational policy actors and networks influencing teacher policies and practices? What are the perspectives and experiences of teachers in local policy contexts? What do comparative research studies tell us about teachers and how their work and policy contexts influence their teaching? How have various countries implemented policies aimed at improving teacher quality, and how have these policies influenced teachers and students? The international contributors represent a wide variety of scholars who identify global dynamics influencing policy discourses on teacher quality and examine national and local teaching and policy environments influencing teacher policy development and implementation in various countries Divided into five sections, the book brings together the latest conceptual and empirical studies on teacher quality and teacher policies to inform future policy directions for recruiting, educating, and supporting the teaching profession **Year/Glance Pacing Chart Gr2 CA Math 02 HSP**, 2001
