programs as the generative source for the field Such histories particularly in the 1980s and 1990s divorced the field from  
activist politics washing out such work in the name of disciplinary identity Class Politics shows the importance of political  
mass movements in the formation of Composition Studies particularly Civil Rights and Black Power Class Politics also  
critiques how the field appropriates these movements The book traces a pathway from social movement to progressive  
academic groups to their work in professional organizations to the formation of the Students Right to Their Own Language  
Stephen Parks then shows how the SRTOL was attacked and politically neutralized by conservative forces in the 1980s and  
1990s arguing for a return to politics to reanimate it s importance and the importance of politics in the field Stephen Parks
