Intergovernmental Panel on Climate Change (IPCC), 2014-12-29 This latest Fifth Assessment Report of the Intergovernmental Panel on Climate Change IPCC will again form the standard reference for all those concerned with climate change and its consequences including students researchers and policy makers in environmental science meteorology climatology biology ecology atmospheric chemistry and environmental policy *Tales from an Uncertain World* L. S. Gardiner, 2018-03-15 So far humanity hasn t done very well in addressing the ongoing climate catastrophe Veteran science educator L S Gardiner believes we can learn to do better by understanding how we ve dealt with other types of environmental risks in the past and why we are dragging our feet in addressing this most urgent emergency Weaving scientific facts and research together with humor and emotion Gardiner explores human responses to erosion earthquakes fires invasive species marine degradation volcanic eruptions and floods in order to illuminate why we find it so challenging to deal with climate change Insight emerges from unexpected places a mermaid exhibit a Magic 8 Ball and midcentury cartoons about a future that never came to be Instead of focusing on the economics and geopolitics of the debate over climate change this book brings large scale disaster to a human scale emphasizing the role of the individual We humans do have the capacity to deal with disasters When we face threatening changes we don t just stand there pretending it isn t so we do something But because we re human our responses aren t always the right ones the first time yet we can learn to do better This book is essential reading for all who want to know how we can draw on our strengths to survive the climate catastrophe and forge a new relationship with nature

Clay's Handbook of Environmental Health Stephen Battersby, 2022-08-16 Since its first publication in 1933 Clay s Handbook of Environmental Health under its different names has provided a definitive guide for the environmental health practitioner EHP and an essential reference for the consultant and student This 22nd edition continues with its more recent successful structure reviewing the core principles techniques competencies and skills required of an EHP and then outlining

the specialist subjects without getting bogged down in a legalistic approach seeking to broaden the content for a more global audience This new edition seeks to educate the EHP on the public health impacts of global heating and the climate emergency and also reflects the COVID 19 pandemic as might be expected Although seeking to have global appeal the impact of the UK leaving the EU is also addressed The book examines environmental health in different settings including in the military working in both conflict and natural disaster settings and environmental health at sea and airports In line with previous editions case studies are used to illustrate how EH problems have been resolved This new edition includes guidance on key issues in public and environmental health including air pollution contaminated land housing and health noise water food safety pests and vector control chemicals in the environment and radiation as well as sustainability and public health and humanitarian crises This handbook aims to give a basic understanding of the philosophical basis of environmental health as well as the required technical aspects and an understanding of environmental health in different settings All chapters have sections on further reading and sources of information Clay s Handbook is essential reading for all practitioners students and researchers in environmental and public health wherever they are working
