

TENTH EDITION

Human Development

Thomas Crandell • Corinne Crandell • James Vander Zanden

Human Development 10th Edition

Léo Pomar

Human Development 10th Edition:

Life-Span Human Development Carol K. Sigelman, Elizabeth A. Rider, 2021-04-23 Packed with the latest research and vivid examples Sigelman and Rider's LIFE SPAN HUMAN DEVELOPMENT 10th edition equips you with a solid understanding of the overall flow of development and the key transformations that occur in each period of the life span. Written in clear straightforward language each chapter focuses on a domain of development such as cognitive or personality development and traces developmental trends and influences in that domain from infancy to old age. Sections on infancy, childhood, adolescence, and adulthood are included. The text emphasizes theories and their use in helping us understand development, focuses on the interplay of nature and nurture in development, and also provides an expansive examination of both biological and sociocultural influences on life span development. Additionally, MindTap digital resources offer anywhere, anytime learning solutions.

Human Development James Vander Zanden, Corinne Crandell, Thomas Crandell, 2011-10-19 This long-trusted text features an interdisciplinary, cross-cultural and contextual perspective on development. Applications to psychology, health care, social work, education, and family dynamics make this a perfect book for classes with a mixed population of majors. And now with Connect Lifespan with Milestones Through Milestones video and assessment program, Connect brings the course material to life so your students can witness development as it unfolds. Continuing the hallmark diversity coverage of the prior nine editions, Crandell et al. once again do an incomparable job examining populations at risk and explaining how they experience development and why their experience is different. With more than 1000 new references, the 10th edition has been updated throughout to reflect the latest information available in human development.

An Introduction to the History of Human Development and Family Science Andrea Roach, Ashley Ermer, 2025-05-02 This comprehensive textbook offers an interdisciplinary introduction to the history of human development and family science. It provides insights from home economics, sociology, and psychology to explain and analyze how the field was established and how it is developing, and showcases the contribution of its unique transdisciplinary nature. Expert authors cover key topics and highlight historical contributions from women scholars of color and LGBTQIA scholars; they emphasize and incorporate research that cuts across cultures and examine current human development and family science trends in research and careers in their chosen fields. Subjects and issues covered include historical and contemporary studies of child development, adolescent development, and young adulthood; adulthood and aging; family science; marriage formation and maintenance; parenthood; divorce; the role of grandparents and sibling relationships. Exploring how human development and family science can be used as a springboard into careers such as marriage and family therapy, social work, case management, teaching, and research, this essential textbook is for all students of human development and family science.

Theories of Human Development Barbara M. Newman, Philip R. Newman, 2015-06-26 Key human development theories that continue to guide research and practice are examined in this engaging text. Ten key theories are grouped into three families: those that

emphasize biological systems environmental factors and those that reflect an interaction between the two This organization enhances students ability to evaluate compare and contrast theories both within and across families Each family is introduced with an overview of their unique perspectives and the rationale for grouping them together Discussion of each theory includes the cultural historical context during the theory s development its key concepts and ideas extensions of the theory in contemporary work an example showing a modification of the theory an application of how the theory is used to inform practice and an analysis of how the theory answers 6 basic questions that a human development theory should address Each chapter includes an overview of the strengths and weaknesses of the theories to facilitate comparisons Theories that have a clear lifespan focus along with cases and examples that address issues across the lifespan are included The second edition features A new chapter on bioecological theory that highlights the increased use of this theory in the development of family school and community intervention programs A new epilogue that examines the same case via each of the ten theories illustrating their similarities and differences and how these ideas cast a unique light on a common situation New opening cases that bring theory to life along with narrative that links the case to the chapter s concepts guiding questions that help students compare theoretical perspectives critical thinking questions that focus on using the theory to interpret the case and personal life experiences and recommended resources that extend students understanding More examples from various disciplines that address topics students are likely to encounter as professionals A new glossary that defines the boldfaced key terms Enhanced website at www.psypress.com/9781848726673 that provides instructors with a test bank Power points discussion questions and activities additional cases with questions teaching notes for using the book with various types of majors and a conversion guide outlining changes to the new edition and students with key terms with hot links to their definitions chapter summaries and outlines and additional resources for further study Updated research and applications highlight the latest scientific developments Ideal for advanced undergraduate or beginning graduate courses in theories of development lifespan or child development taught in psychology human development family studies education and social work

Human Developmental Toxicants James L. Schardein, Orest T. Macina, 2006-08-15 Presenting the first database of its kind this unique reference illustrates the relationships between the chemistry and developmental toxicity of a number of important pharmaceuticals and industrial toxicants *Human Developmental Toxicants* contains up to date and concise information on the chemical structures properties and biological activities for 50 known agents that adversely affect prenatal and postnatal human development in terms of growth viability structure and function This book presents data linking chemical and structural properties of specific toxicants as they relate to toxic effects dosage timing and route of exposure Focusing on one compound per chapter the book also includes associated biological data from animals for each agent covered Accompanying downloadable resources summarize all of the data discussed in the text within an electronic database In addition the CD contains three dimensional structure representations and 49 calculated physicochemical and

topological parameters of the selected molecules This information is useful for building structure activity relationship SAR models linking the chemical properties with observed human developmental toxicity As scientists continue to explore how chemicals alter human development Human Developmental Toxicants contains the necessary information to further identify which chemical properties are responsible for adverse effects This reference provides toxicologists teratologists chemists and other scientists with the latest data and information needed to perform risk assessments predict chemicals that may produce developmental toxicity and regulate harmful exposure

The SAGE Encyclopedia of Lifespan Human Development
