

## 2:- Konica Minolta Error Code 107 Solution

One of the following possibilities could be the cause of the code 107, often known as the "scan to email error code 107":

1. The printer cannot log in or connect to the shared folder.
2. The shared folder isn't there.
3. The firewall settings don't open the SMB port.

Since this is frequently the cause of the printer being unable to connect to the shared folder, it is required to allow the TCP 445 port in your computer's firewall in order to fix the code 107. Try to allow File and Printer Sharing functionality in your Windows settings if the port has been opened. While you're doing it, verify that the shared folder is configured properly by examining its access privileges and determining whether they meet the needs of your use case.

**The shared folder's name should be checked and any special characters, spaces, etc. should be removed if the scan to email error code 107 cannot be fixed.** To avoid problems with using the folder in the future, limit the name to normal letters and digits.
