This is the go-to book for psychologists, educationalists, and other professionals wanting a deeper understanding of current thinking around dyslexia, reading comprehension difficulties, and related SpLDs. Drawing on six fictional case studies to illustrate her points and using examples of good practice throughout, Valerie Muter unpacks the latest psychological theories and research on literacy disorders. She discusses the interconnections between underlying cognitive problems and learning and educational and behavioural issues, as well as the common co-occurrence of these conditions. This authoritative book also provides accessible guidance on making assessments and tailoring interventions within the home or school. Written by a lead thinker in the field, this is an essential evidence-based guide for those working with children with literacy difficulties and supporting them to achieve their full potential.

Issues in English Teaching Jon Davison, John Moss, 2002-09-11. *Issues in English Teaching* invites primary and secondary teachers of English to engage in debates about key issues in subject teaching. The issues discussed include the increasingly centralised control of the curriculum, assessment and pedagogy in the school teaching of English in England and Wales as a result of initiatives such as the National Literacy Strategy, new technologies which are transforming pupils' lived experience of literacy or literacies, the accelerating globalisation of English, and the independence of other versions of English from English Standard English A. National Curriculum with a nationalist perspective on language, literacy and literature cannot fully accommodate English, what has become naturalised and normalised in English teaching, and the educational and ideological reasons for this. Hierarchies that have been created in the curriculum and pedagogy, identifying who and what has been given low status, excluded or marginalised in the development of the current model of English. *Issues in English Teaching* will stimulate student teachers, NQTs, language and literacy co-ordinators, classroom English teachers, and aspiring or practising Heads of English to reflect on the identity of the subject, the principles and policies which have determined practice, and those which should influence future practice.

The Teacher's Guide to Understanding and Supporting Children with Literacy Difficulties In The Classroom Valerie Muter, 2024-09-19. Why do some children experience literacy difficulties? How can I identify a child with reading and writing challenges? What is the best way to support them in a classroom context? 1 in 8 children will experience some kind of reading difficulty, and while you as a class teacher are not expected to formally assess children or deliver specialist interventions, a good understanding of literacy challenges is crucial for providing optimum educational support. This guide demystifies and disentangles different types of literacy difficulty and explains how they can impact the child's day-to-day classroom functioning and general school life. Chapters include how to identify children that are struggling, how to work with SpLD teachers and parents so they can be maximally supported, the co-occurrence of literacy difficulties with other learning difficulties such as with maths and attention problems, alongside practical tips to support each child's learning. Strongly grounded in up-to-date theory and research, this is a perfect companion for classroom teachers of all
