illustrations and charts size 8 25 x 10 75 inches This manual is a compilation of 6 publications It includes the September 1974 workshop manual for the Penton 100cc Berkshire and the 125cc Six Day models plus three Penton illustrated parts lists for those same models In addition it also includes the 1969 Floyd Clymer 100cc and 125cc Sachs engines workshop manual plus an illustrated Sachs engine parts list The off road motorcycle revolution was at its peak by the mid 1960 s and while the predominance of those motorcycles were imports Maico Hodaka Bultaco Husqvarna Ducati to name just a few there were no USA manufacturers This situation changed when entrepreneur John Penton struck a deal with KTM to produce a series of off road motorcycles to his specification This collaboration resulted in the birth of Penton motorcycles namely the 100cc Berkshire and the 125cc Six Day models Today Penton motorcycles are highly sought after classics from the mid 1960 s off road revolution There are few if any manuals that deal with the Penton KTM Sachs motorcycles and those that are available are lacking the detail required to repair maintain and overhaul the Sachs engines Floyd Clymer was the first to publish an in depth workshop manual for the 100cc and 125cc Sachs engines and it is included in this publication The combination of the Penton and Clymer manuals yields a comprehensive workshop manual and the inclusion of the illustrated parts list for both manufacturers will be a major assistance in the repair and or restoration of the Penton Berkshire and Six Day models Unfortunately owners of these early Penton motorcycles are subjected to considerable confusion surrounding the appropriate selection of the multitude of originals and reprints of the various manuals and parts lists that have recently flooded the marketplace We encourage you to exercise caution when purchasing a manual for your motorcycle or automobile as many of the reprints found on internet websites are from bedroom sellers at enticingly low prices by individuals that really have no idea what they are selling Many are nothing more than poor quality comb bound photocopies that are scanned and printed complete with greasy pages and thumbprints and as such are deceptively described as pre owned used or even refurbished In addition they are often advertised for the incorrect series and or model years CZ 125/175 and 175 Trail Owners Workshop Manual Mervyn Bleach,1975-01-01 *Honda XL 250-350 Trail Bikes Owners Workshop Manual* Jeff Clew,1974-01-01 **Triumph Motorcycles Illustrated Workshop Manual 1945-1955** Floyd Clymer,2007-02-01 1945 to 1955 and later Models An illustrated workshop manual covering Triumph twin cylinder motorcycles from 1945 to 1955 This is a faithful reproduction of the Factory Workshop Manual No 11 originally published in the US by Floyd Clymer The major revision in the later pre unit factory manuals was the addition of technical specifications for the T120 Bonneville 1959 Unfortunately those revisions also included the deletion of repair data for rigid frame sprung hub and 3T models This makes the Factory Workshop Manual No 11 the most comprehensive workshop manual available for pre unit twin cylinder Triumph motorcycles up to and including 1962 models as it includes repair and maintenance data for the full line of rigid frame sprung hub swing arm and 350cc models Much more detailed than the owner s handbook this manual provides the information necessary for the overhaul of engines gear boxes frames swing arm forks wheels hubs carburetors electrics etc
