Schopp, 2020-11-02 Sino French Trade at Canton 1698 1842 presents a rare and lively view of the French experience at Canton and calls for a reappraisal of France's role in that trade France was one of the two most important Western powers in the eighteenth century and was home to one of the three major European East India companies Yet the nation is woefully underrepresented in Canton trade scholarship Susan E Schopp rescues the French from the sidelines showing that they exerted a presence that though closely watched by their rivals is today largely unrecognized Their contributions were diverse ranging from finding new sea routes to inspiring the renovation of hong fa ades Consequently to ignore the French or to dismiss them as simply also rans results in a skewed perception of the Canton system Schopp also demonstrates that while the most distinctive aspect of the French model of company trade was the dominant role of the state indeed the French East India Company has been memorably described as a Versailles of trade this did not rule out a place for legitimate and sometimes surprising participation by the private sector On the contrary France's commercial relations with China were inaugurated by private traders and the popularity of the Canton trade spurred the eventual demise of the company model Backed up by extensive archival work Schopp's work demonstrates a remarkable understanding of the Sino European trade and her book reveals an unparalleled passion for the role of seamanship in history It is shocking how little has been written in any language about French trade in China so this excellent book fills a tremendous need It has the potential to become a classic monograph of lasting significance an outstanding work that will make a strong imprint on the historiography Tonio Andrade Emory University Schopp's valuable study shows that the French ought not to be considered also rans in European trade with China The French way was in fact a distinctive model of European trade with China one different from that of the better known English East India Company The author's comprehensive research takes the reader into the material history of the French trading vessels the hong and the personnel involved in the trade Robert Aldrich University of Sydney
