ICT Innovations 2018. Engineering and Life Sciences Slobodan Kalajdziski, Nevena Ackovska, 2018-09-12 This book constitutes the refereed proceedings of the 10th International ICT Innovations Conference ICT Innovations 2018 held in Ohrid Macedonia in September 2018 The 21 full papers presented were carefully reviewed and selected from 81 submissions They cover the following topics sensor applications and deployments embedded and cyber physical systems robotics network architectures cloud computing software infrastructure software creation and management models of computation computational complexity and cryptography design and analysis of algorithms mathematical optimization probability and statistics data management systems data mining human computer interaction HCI artificial intelligence machine learning life and medical sciences health care information systems bioinformatics

Dual-use life science research and biosecurity in the 21st Century: Social, Technical, Policy, and Ethical Challenges Jonathan E. Suk, Kathleen M. Vogel, Amanda Jane Ozin, 2015-06-04 In September 2011 scientists announced new experimental findings that would not only threaten the conduct and publication of influenza research but would have significant policy and intelligence implications The findings presented a modified variant of the H5N1 avian influenza virus hereafter referred to as the H5N1 virus that was transmissible via aerosol between ferrets These results suggested a worrisome possibility the existence of a new airborne and highly lethal H5N1 virus that could cause a deadly global pandemic In response a series of international discussions on the nature of dual use life science arose These discussions addressed the complex social technical political security and ethical issues related to dual use research This Research Topic will be devoted to contributions that explore this matrix of issues from a variety of case study and international perspectives

Life Sciences, Information Sciences Thierry Gaudin, Dominique Lacroix, Marie-Christine Maurel, Jean-Charles Pomerol, 2018-03-15 Developed from presentations given at the Cerisy SVSI Sciences de la vie sciences de l'information conference held in 2016 this book presents a broad overview of thought and research at the intersection of life sciences and information sciences The contributors to this edited volume explore life and information on an equal footing with each considered as crucial to the other In the first part of the book the relation of life and information in the functioning of genes at both the phylogenetic and ontogenetic levels is articulated and the common understanding of DNA as code is problematized from a range of perspectives The second part of the book homes in on the algorithmic nature of information questioning the fit between life and automaton and the accompanying division between individualization and invariance Consisting of both philosophical speculation and ethological research the explorations in this book are a timely intervention into prevailing understandings of the relation between information and life **Innovative Research in Life Sciences** E.

Andrew Balas, 2018-12-06 I thoroughly enjoyed reading this book as it has taken me on a journey through time across the globe and through multiple disciplines Indeed we need to be thinking about these concepts and applying them every day to do our jobs better Farah Magrabi Macquarie University Australia The reader will find intriguing not only the title but also the content of the book I'm also pleased that public health and even more specifically epidemiology has an important place in this ambitious discussion Elena Andresen Oregon Health Science University USA This book is very well written and addresses an important topic It presents many reasons why basic scientists researchers should establish collaborations and access information outside traditional means and not limit thinking but rather expand such and perhaps develop more innovative and translational research ventures that will advance science and not move it laterally Gerald Pepe Eastern Virginia Medical School USA This book gathers logically and presents interestingly with many examples the qualities and attitudes a researcher must possess in order to become successful On the long run the deep and carefully reexamined research will be the one that lasts Zoltan Babai Bolyai University Romania I really liked the five pillars delineating the components of humanism in research This book has made a major contribution to the research ethics literature David Fleming University of

Missouri USA A comprehensive review of the research phase of life sciences from design to discovery with suggestions to improve innovation This vital resource explores the creative processes leading to biomedical innovation identifies the obstacles and best practices of innovative laboratories and supports the production of effective science Innovative Research in Life Sciences draws on lessons from 400 award winning scientists and research from leading universities The book explores the innovative process in life sciences and puts the focus on how great ideas are born and become landmark scientific discoveries The text provides a unique resource for developing professional competencies and applied skills of life sciences researchers The book examines what happens before the scientific paper is submitted for publication or the innovation becomes legally protected This phase is the most neglected but most exciting in the process of scientific creativity and innovation The author identifies twelve competencies of innovative biomedical researchers that described and analyzed This important resource Highlights the research phase from design to discovery that precedes innovation disclosure Offers a step by step explanation of how to improve innovation Offers solutions for improving research and innovation productivity in the life sciences Contains a variety of statistical databases and a vast number of stories about individual discoveries Includes a process of published studies and national statistics of biomedical research and reviews the performance of research labs and academic institutions Written for academics and researchers in biomedicine pharmaceutical science life sciences drug discovery pharmacology Innovative Research in Life Sciences offers a guide to the creative processes leading to biomedical innovation and identifies the best practices of innovative scientists and laboratories

Radiation Protection in Medical Radiography - E-Book Mary Alice Statkiewicz Sherer, Paula J. Visconti, E. Russell Ritenour, Kelli Welch Haynes, 2017-09-16 Gain a full understanding of both basic and complex concepts in radiation protection biology and physics Beautifully designed and easy to follow Radiation Protection in Medical Radiography 8th Edition promotes the safe use of ionizing radiation in all imaging modalities including the effects of radiation on humans at the cellular and systemic levels regulatory and advisory limits for human exposure to radiation and the implementation of radiation safety practices for patients and personnel This market leading text reflects the latest ARRT and ASRT curriculum guidelines to help you succeed on the ARRT exam Plus the new edition includes tables with sensitivity ranges to provide easy reference for each type of dosimeter Convenient easy to use features include chapter outlines and objectives listing and highlighting of key terms and bulleted summaries general discussion questions and review questions to enhance student comprehension and retention NCRP and ICRP content includes guidelines regulations and radiation quantities and units explaining the effects of low level ionizing radiation demonstrating the link between radiation and cancer and other diseases and providing the regulatory perspective needed for practice Clear and concise writing style covers complex concepts in radiation protection biology and physics in a building block approach from basic to more complex concepts Timely coverage of radiation protection regulations addresses radiation awareness and education efforts across the globe NEW Chapter Radiation Safety in Computed Tomography and Mammography compiles

content on tomography and mammography into one chapter UPDATED Full color equipment images and illustrations reinforce important information UPDATED Content reflects the latest ARRT and ASRT curriculum guidelines Review questions are included at the end of chapters to assess your comprehension with answers on the Evolve companion website NEW Key word glossary helps you find and understand need to know terms NEW Additional tables with sensitivity ranges makes each type of dosimeters easy to reference

Challenging Tradition Perry Shaw,Havilah Dharamraj,2018-03-31 The surge of theological education in the rapidly growing church of the Majority World has highlighted the inadequacy of traditional Western methods of thinking and learning to fully accomplish the task at hand The limitations of current theological education are embodied in the formation and assessment of the master s or doctoral dissertation processes that follow a linear empiricist tradition developed in the West and exported to the Majority World Challenging Tradition Innovation in Advanced Theological Studies highlights the need for these traditions to be reconsidered in every context throughout the world Drs Shaw and Dharamraj with their team of contributors present innovations in research and documentation that demonstrate how we may better prepare theological leadership through means that are contextually relevant and locally meaningful

A Collection of Surveys on Savings and Wealth Accumulation Edda Claus,Iris Claus,2016-02-23 In this collection of critical surveys the reader is provided with a range of up to date work from some of the leading scholars in the area writing on private and public sector aspects of savings and wealth accumulation A survey of savings and wealth accumulation which are important dimensions of research and policy debates Discusses the measurement of genuine savings and sustainability the estimation of wealth inequality and recent developments in consumer credit and defaults Evaluates the impact of student loans on financial well being people s retirement decisions and the impact of pension reform Considers the distribution of wealth across generations and the importance of accurately measuring government debt the rise of sovereign wealth funds and Islamic banking and finance

Environmental Engineering for the 21st Century National Academies of Sciences, Engineering, and Medicine,National Academy of Engineering,Division on Engineering and Physical Sciences,Division on Earth and Life Studies,Water Science and Technology Board,Ocean Studies Board,NAE Office of Programs,Board on Life Sciences,Board on Environmental Studies and Toxicology,Board on Earth Sciences and Resources,Board on Energy and Environmental Systems,Board on Chemical Sciences and Technology,Board on Atmospheric Sciences and Climate,Board on Agriculture and Natural Resources,Committee on the Grand Challenges and Opportunitites in Environmental Engineering for the Twenty-First Century,2019-03-08 Environmental engineers support the well being of people and the planet in areas where the two intersect Over the decades the field has improved countless lives through innovative systems for delivering water treating waste and preventing and remediating pollution in air water and soil These achievements are a testament to the multidisciplinary pragmatic systems oriented approach that characterizes environmental engineering Environmental Engineering for the 21st Century Addressing Grand Challenges outlines the

crucial role for environmental engineers in this period of dramatic growth and change The report identifies five pressing challenges of the 21st century that environmental engineers are uniquely poised to help advance sustainably supply food water and energy curb climate change and adapt to its impacts design a future without pollution and waste create efficient healthy resilient cities and foster informed decisions and actions

The metabolic pathways and environmental controls of hydrocarbon biodegradation in marine ecosystems Joel E. Kostka, Andreas P. Teske, Samantha B. Joye, Ian Head, 2015-05-15 Biodegradation mediated by indigenous microbial communities is the ultimate fate of the majority of oil hydrocarbon that enters the marine environment The aim of this Research Topic is to highlight recent advances in our knowledge of the pathways and controls of microbially catalyzed hydrocarbon degradation in marine ecosystems with emphasis on the response of microbial communities to the Deepwater Horizon oil spill in the Gulf of Mexico In this Research Topic we encouraged original research and reviews on the ecology of hydrocarbon degrading bacteria the rates and mechanisms of biodegradation and the bioremediation of discharged oil under situ as well as near in situ conditions

Learning, Design, and Technology J. Michael Spector, Barbara B. Lockee, Marcus D. Childress, 2023-10-14 The multiple related fields encompassed by this Major Reference Work represent a convergence of issues and topics germane to the rapidly changing segments of knowledge and practice in educational communications and technology at all levels and around the globe There is no other comparable work that is designed not only to gather vital current and evolving information and understandings in these knowledge segments but also to be updated on a continuing basis in order to keep pace with the rapid changes taking place in the relevant fields The Handbook is composed of substantive 5 000 to 15 000 words peer reviewed entries that examine and explicate seminal facets of learning theory research and practice It provides a broad range of relevant topics including significant developments as well as innovative uses of technology that promote learning performance and instruction This work is aimed at researchers designers developers instructors and other professional practitioners
