Life Science Paper 1 November 2013 Grade 10:

Informed is best Amy Brown, 2019 From the moment you share the news that you are pregnant or have a new baby it feels like everyone becomes an expert Did you see that headline Did you hear that story on TV Have you heard the latest about what they say is best In a world overflowing with information telling you what is best for you and your baby making decisions can feel overwhelming Who do you trust Who is telling the truth And how do you know if what they are saying is right for you How By becoming your own expert in sorting the media spin and politics from the actual facts and data This isn't a book that is going to tell you which decisions to make or that there is ever one right answer It is not going to tell you that the same thing is always best for everyone Instead this is a guide to help you evaluate information and evidence to decide what is right for you your body and your baby In three main parts it will firstly open your eyes to how information is shared in the media and how this can affect our thinking and decision making Next it will help you spot who is funding leading and promoting research and how this can affect the content of what is shared Finally it will talk you through reading understanding and evaluating evidence for yourself across topics in pregnancy birth and caring for babies You ll learn how to spot weaknesses in methods used how to determine the real risk for you and your baby and how wider context and other factors can influence what research means for you Information is power Making your own decisions that are right for you is empowering **Informed is best**

Sexuality, Society & Pedagogy Dennis A. Francis, 2013-01-01 Sexuality Society and Pedagogy problematises some of the prevailing assumptions that frame this area of study In doing so it aims to make visible the challenges of teaching sexuality education in South African schools while demonstrating its potential for reshaping our conceptions of the social and cultural representations thereof Although the book is largely situated in experiences and perspectives within the South African context it is hoped that the questions raised reflections analyses and arguments will contribute to thinking about sexuality education in diverse contexts in particular more developing contexts **The**

The Omega Principle Paul Greenberg, 2018-07-10 By the bestselling author of *Four Fish* and *American Catch* an eye opening investigation of the history science and business behind omega 3 fatty acids the miracle compound whose story is intertwined with human health and the future of our planet Omega 3 fatty acids have long been celebrated by doctors and dietitians as key to a healthy heart and a sharper brain In the last few decades that promise has been encapsulated in one of America s most popular dietary supplements Omega 3s are today a multi billion dollar business and sales are still growing apace even as recent medical studies caution that the promise of omega 3s may not be what it first appeared But a closer look at the omega 3 sensation reveals something much deeper and more troubling The miracle pill is only the latest product of the reduction industry a vast global endeavor that over the last century has boiled down trillions of pounds of marine life into animal feed fertilizer margarine and dietary supplements The creatures that are the victims of that industry seem insignificant to the untrained eye but turn out to be essential to the survival of whales penguins and fish of all kinds including many that we love to eat Behind these tiny molecules is a big story of the push and pull of science and business of the fate of our oceans in a human dominated age of the explosion of land food at the expense of healthier and more sustainable seafood of the human quest for health and long life at all costs James Beard Award winning author Paul Greenberg probes the rich and surprising history of omega 3s from the dawn of complex life when these compounds were first formed to human prehistory when the discovery of seafood may have produced major cognitive leaps for our species and on to the modern era when omega 3s may point the way to a bold new direction for our food system With wit and boundless curiosity Greenberg brings us along on his travels from Peru to Antarctica from the Canary Islands to the Amalfi Coast to reveal firsthand the

practice and repercussions of our unbalanced way of eating Rigorously reported and winningly told The Omega Principle is a powerful argument for a more deliberate and forward thinking relationship to the food we eat and the oceans that sustain us

All the Rage Virginia Nicholson, 2024-08-06 A panoramic social history that chronicles the quest for beauty in all its contradictions and how it affects the female body Who decides what is fashionable What clothes we wear what hairstyles we create what colour lipstick we adore what body shape is all the rage The story of female adornment from 1860 1960 is intriguingly unbuttoned in this glorious social history Virginia Nicholson has long been fascinated by the way we women present ourselves or are encouraged to present ourselves to the world Women have been fat or slim hyperthyroid or splenetic sallow or pink cheeked slouched or erect according to the prevalent notions of beauty Cecil Beaton The Glass of Fashion 1954 In this book we learn about rational dress suffragettes hats the Marcel wave the Gibson Girls corsets and the banana skirt At the centre of this story is the female body in all its diversity fat thin short tall brown white black pink smooth hairy wrinkly youthful crooked or symmetrical and relevant as ever in this context the vexed issues of body image and bodily autonomy We may even find ourselves wondering whose body is it In the hundred years this book charts the western world saw the rapid introduction of new technologies like photography film and eventually TV which for better and worse thrust women and female imagery out of the private and into the public gaze

The Mansion of Happiness Jill Lepore, 2013-03-26

Renowned Harvard scholar and New Yorker staff writer Jill Lepore has written a strikingly original ingeniously conceived and beautifully crafted history of American ideas about life and death from before the cradle to beyond the grave How does life begin What does it mean What happens when we die All anyone can do is ask Lepore writes That's why any history of ideas about life and death has to be like this book a history of curiosity Lepore starts that history with the story of a seventeenth century Englishman who had the idea that all life begins with an egg and ends it with an American who in the 1970s began freezing the dead In between life got longer the stages of life multiplied and matters of life and death moved from the library to the laboratory from the humanities to the sciences Lately debates about life and death have determined the course of American politics Each of these debates has a history Investigating the surprising origins of the stuff of everyday life from board games to breast pumps Lepore argues that the age of discovery Darwin and the Space Age turned ideas about life on earth topsy turvy New worlds were found she writes and old paradises were lost As much a meditation on the present as an excavation of the past The Mansion of Happiness is delightful learned and altogether beguiling
