Microeconomics 13th Canadian Edition:

The Microeconomics Anti-Textbook Rod Hill, Tony Myatt, 2021-12-02 Mainstream textbooks present economics as an objective science free from value judgements The Microeconomics Anti Textbook demonstrates this to be a myth one which serves to make such textbooks not only off puttingly bland but also dangerously misleading in their justification of the status quo and neglect of alternatives In this fully updated and expanded edition of their celebrated book Professors Rod Hill and Tony Myatt lay out the essentials of each topic in the standard texts in a clear and concise way before presenting an anti text analysis and critique Challenging the assumptions arguments and models Hill and Myatt provide the essential guide to decoding the textbooks and show that real economics is far more interesting and subversive than the simplistic version presented to students *Canadian Books in Print. S. Ragan, Richard G. Lipsey, 2013-01-01 Philosophy of Sex and Love Patricia Marino, 2019-03-13 Writing for non specialists and students as well as for fellow philosophers this book explores some basic issues surrounding sex and love in today's world among them consent objectification non monogamy racial stereotyping and the need to reconcile contemporary expectations about gender equality with our beliefs about how love works Author Patricia Marino argues that we cannot fully understand these issues by focusing only on individual desires and choices Instead we need to examine the social contexts within which choices are made and acquire their meanings That perspective she argues is especially needed today when the values of individualism self expression and self interest permeate our lives Marino asks how we can fit these values which govern so many areas of contemporary life with the generosity caring and selflessness we expect in love and sex Key

Features of Philosophy of Sex and Love An Opinionated Introduction Offers a contemporary problems based approach to the subject helping readers better understand and address current issues and controversial questions Includes coverage of sex and love as they intersect with topics like disability race medicine and economics Considers not only the ethical but also the broadly social and political dimensions of sex and love Includes a helpful introduction and conclusion in each chapter and is written throughout in a clear and straightforward style with examples and signposts to help guide the student and general reader A comprehensive and up to date bibliography provides a valuable tool for anyone's further research **Ars longa, vita brevis** World Intellectual Property Organization,2023-08-24 This paper studies the death effect on artists exhibitions and commercial success in the secondary art market Based on a random sample of 1 000 popular artists born after the turn of the 20th century we construct a novel panel data set of their worldwide exhibition history and auction transactions By applying a regression discontinuity and event study design we find an overall negative effect of artist death on the number of exhibitions However this post mortem effect disappears in longer term Roughly ten years after death exhibitions are back to pre death levels Arguably transaction cost and higher auction prices after death also temporarily increase the average cost of exhibiting artworks e g higher market valuation raises unobserved insurance cost for exhibitions Hedonic auction price models confirm this intuition and suggest a significant price premium posthumously We find substantial heterogeneity in the treatment depending on the age and reputation of the artist at death Overall findings explain important mechanisms for the post mortem value of artistic work and have important policy implications for the creative sectors and the design of legacy stewardship rules including a possible justification for rights granted post mortem such as copyright **Study Guide to Accompany Economics : First Canadian Edition** Ake G.
