Cox, Paolo F. Ricci, 2013-06-29 This

volume contains the proceedings of the 1986 annual meeting and conference of the Society for Risk Analysis. It provides a detailed view of both mature disciplines and emerging areas within the fields of health safety and environmental risk analysis as they existed in 1986. In selecting and organizing topics for this conference, we sought both i) to identify and include new ideas and application areas that would be of lasting interest to risk analysts and to users of risk analysis results and ii) to include innovative methods and applications in established areas of risk analysis. In the three years since the conference, many of the topics presented there for the first time to a broad risk analysis audience have become well developed and sometimes hotly debated areas of applied risk research. Several such as the public health hazards from indoor air pollutants, radon in the home, high voltage electric fields and the AIDS epidemic have been the subjects of headlines since 1986. Older areas such as hazardous waste site ranking and remediation, air emissions dispersion modeling and exposure assessment, transportation safety, seismic and nuclear risk assessment and occupational safety in the chemical industry have continued to receive new treatments and to benefit from advances in quantitative risk assessment methods as documented in the theoretical and methodological papers in this volume. A theme of the meeting was the importance of new technologies and the new and uncertain risks that they create.

Stranded Luis Rivera, 2014-07-25. When a local boy who has lived his entire life in the dangerous streets of the south side of Chicago thought he had it rough, he experiences true torture after his entire family dies before him on their once in a lifetime trip to Hawaii. After failing to save his mother and siblings, he experiences survivor's guilt as he is the only one who managed to walk away from the wreckage of a crashed plane that was supposed to deliver both his family and him onto paradise. Instead, he has been shoved into the depths of hell as he is captured by a strange species on a lonely island in the Pacific. Will he be dealt a final blow by his captors and join his family in the circle of death, or is he meant for greater plans?

That Feeling You Get Aaron Michael Ricossa, 2020-12-01. Luisa Stein may be a promising young investigative journalist, but this story she has accidentally walked into might just be the end of her relationship, her job, or even her life. Sitting on a train to an unknown destination with a strange man who has given her no name, Luisa wonders how she ended up in this situation. Was it the mystery of the invitation? Or was it the trance-like feeling that made every hair on her body stand on end when this man asked her to join him? Before she has a chance to figure it out, she is thrust into a world of action and mystery that she can't seem to pull herself away from. Is this all for a story, or is this exactly where Luisa was always meant to be?
