

Hammurabi's Code: Was It Just?

One of the most famous ancient legal codes was written by Hammurabi ("The Good and Right") in Mesopotamia (modern-day Iraq) around 1750 B.C. Hammurabi's Code contains 282 laws that covered the areas of family, property, and personal injury, and also set out the principle of retribution. The code was inscribed on a large black basalt stele in "law" by setting (vertical) columns of text, and was placed in a public place for Hammurabi's people.

towards blessing Gen 12 24 experiencing the blessing Gen 25 36 and being a blessing Gen 37 50 is thus progressively developed The specificity of these theological ideas for their respective texts makes possible a sequential homiletical movement through each pericope of the book enabling the expositor to discover valid application for sermons While the primary goal of the commentary is to take the preacher from text to theology it also provides two sermon outlines for each of the thirty five units of Genesis The unique approach of this work results in a theology for preaching commentary that promises to be useful for anyone teaching through Genesis with an emphasis on application *The Oldest Code of Laws in the World* C. The Code of Hammurabi Hammurabi, Leonard William King, 2014-09-01 The Code of Hammurabi is a well preserved Babylonian law code of ancient Mesopotamia dating back to about 1772 BC It is one of the oldest deciphered writings of significant length in the world The sixth Babylonian king Hammurabi enacted the code and partial copies exist on a human sized stone stele and various clay tablets The Code consists of 282 laws with scaled punishments adjusting an eye for an eye a tooth for a tooth *lex talionis* as graded depending on social status of slave versus free man Nearly one half of the Code deals with matters of contract establishing for example the wages to be paid to an ox driver or a surgeon Other provisions set the terms of a transaction establishing the liability of a builder for a house that collapses for example or property that is damaged while left in the care of another A third of the code addresses issues concerning household and family relationships such as inheritance divorce paternity and sexual behavior Only one provision appears to impose obligations on an official this

provision establishes that a judge who reaches an incorrect decision is to be fined and removed from the bench permanently. A handful of provisions address issues related to military service. One nearly complete example of the Code survives today on a diorite stele in the shape of a huge index finger 2.25 metre (7.4 ft) tall (see images at right). The Code is inscribed in the Akkadian language using cuneiform script carved into the stele. It is currently on display in The Louvre, with exact replicas in the Oriental Institute at the University of Chicago, the library of the Theological University of the Reformed Churches (Dutch: Theologische Universiteit Kampen voor de Gereformeerde Kerken) in The Netherlands, the Pergamon Museum of Berlin, and the National Museum of Iran in Tehran. Hammurabi ruled for nearly 44 years c. 1792 to 1750 BC according to the Middle chronology. In the preface to the law, he states: "Anu and Bel called by name me Hammurabi, the exalted prince who feared Marduk, the patron god of Babylon. The Human Record (Andrea Overfield, 2005) brings about the rule in the land. On the stone slab, there are 44 columns and 28 paragraphs that contained 282 laws. The stele was probably erected at Sippar, city of the sun god Shamash, god of justice, who is depicted handing authority to the king in the image at the top of the stele. In 1901, Egyptologist Gustave J. Quatremère, a member of an expedition headed by Jacques de Morgan, found the stele containing the Code of Hammurabi in what is now Iran, ancient Susa (Elam), where it had been taken as plunder by the Elamite king Shutruk-Nahhunte in the 12th century BC. The Code of Hammurabi was one of several sets of laws in the ancient Near East. The code of laws was arranged in orderly groups so that everyone who read the laws would know what was required of them. Earlier collections of laws include the Code of Ur-Nammu, king of Ur, c. 2050 BC, the Laws of Eshnunna, c. 1930 BC, and the codex of Lipit-Ishtar of Isin, c. 1870 BC, while later ones include the Hittite laws, the Assyrian laws, and Mosaic Law. These codes come from similar cultures in a relatively small geographical area, and they have passages which resemble each other. The Code of Hammurabi is the longest surviving text from the Old Babylonian period. The code has been seen as an early example of a fundamental law regulating a government, i.e., a primitive constitution. The code is also one of the earliest examples of the idea of presumption of innocence, and it also suggests that both the accused and accuser have the opportunity to provide evidence.

The Code of Hammurabi Hammurabi, 1790-1750 BC. The Code of Hammurabi is a well-preserved Babylonian law code of ancient Mesopotamia dating back to about 1754 BC. It is one of the oldest deciphered writings of significant length in the world. The sixth Babylonian king, Hammurabi, enacted the code, and partial copies exist on a man-sized stone stele and various clay tablets. The Code consists of 282 laws with scaled punishments, adjusting "an eye for an eye, a tooth for a tooth" (*lex talionis*) as graded depending on social status of slave versus free man. Nearly one-half of the Code deals with matters of contract, establishing, for example, the wages to be paid to an ox driver or a surgeon. Other provisions set the terms of a transaction, establishing the liability of a builder for a house that collapses, for example, or property that is damaged while left in the care of another. A third of the code addresses issues concerning household and family relationships such as inheritance, divorce, paternity, and sexual behavior. Only one provision appears to impose obligations on an official; this provision establishes that a

Johns,2014-10-24 The Code of Hammurabi is one of the most important monuments in the history of the human race Containing as it does the laws which were enacted by a king of Babylonia in the third millennium B C whose rule extended over the whole of Mesopotamia from the mouths of the rivers Tigris and Euphrates to the Mediterranean coast we must regard it with interest But when we reflect that the ancient Hebrew tradition ascribed the migration of Abraham from Ur of the Chaldees to this very period and clearly means to represent their tribe father as triumphing over this very same Hammurabi Amraphel Gen xiv 1 we can hardly doubt that these very laws were part of that tradition At any rate they must have served to mould and fix the ideas of right throughout that great empire and so form the state of society in Canaan when five hundred years later the Hebrews began to dominate that region
