**How the World Made the West** Josephine Quinn, 2024-09-03 An award winning Oxford history professor makes a forceful argument and tells a story with great verve The Wall Street Journal that the West is and always has been truly global Those archaic Western Civ classes so many of us took in college should be updated argues Quinn who invites us to revel in a richer more polyglot inheritance The Boston Globe AN ECONOMIST BEST BOOK OF THE YEAR LONGLISTED FOR THE CUNDILL HISTORY PRIZE In How the World Made the West Josephine Quinn

poses perhaps the most significant challenge ever to the civilizational thinking regarding the origins of Western culture that is the idea that civilizations arose separately and distinctly from one another Rather she locates the roots of the modern West in everything from the law codes of Babylon Assyrian irrigation and the Phoenician art of sail to Indian literature Arabic scholarship and the metalworking riders of the Steppe to name just a few examples According to Quinn reducing the backstory of the modern West to a narrative that focuses on Greece and Rome impoverishes our view of the past This understanding of history would have made no sense to the ancient Greeks and Romans themselves who understood and discussed their own connections to and borrowings from others They consistently presented their own culture as the result of contact and exchange Quinn builds on the writings they left behind with rich analyses of other ancient literary sources like the epic of Gilgamesh holy texts and newly discovered records revealing details of everyday life A work of breathtaking scholarship *How the World Made the West* also draws on the material culture of the times in art and artifacts as well as findings from the latest scientific advances in carbon dating and human genetics to thoroughly debunk the myth of the modern West as a self made miracle In lively prose and with bracing clarity as well as through vivid maps and color illustrations *How the World Made the West* challenges the stories the West continues to tell about itself It redefines our understanding of the Western self and civilization in the cosmopolitan world of today

**Royal Women at Ugarit** Christine Neal Thomas, 2024-09-27 This volume challenges patrimonialism as a political model for the ancient Near East by engaging with letters and legal texts concerning royal women at Late Bronze Age Ugarit demonstrating women s pivotal roles in the exercise of power and then bringing these insights to bear on the Hebrew Bible The book offers a new vision of how women figure in ancient political systems Through an analysis of royal letters legal verdicts and regional records it examines overt claims and implicit anxieties concerning the pivotal roles of royal women Three case studies from Late Bronze Age Ugarit reveal that a single woman functioning in a range of modalities mother daughter sister and wife brokered a network of relationships among a range of men Patrimonialism depended on the political polyvalence of women Texts from Ugarit attest to this reality and the biblical royal women of the House of David amplify its significance This analysis of women s activity within and among royal households is productive not only for the study of the Late Bronze Age Levant but also as a model for analogous inquiries into ancient societies and other systems in which data are thin and patrimonialism widely in evidence *Royal Women at Ugarit* is suitable for students and scholars working on women and gender in the ancient Near East as well as those interested in the political realm of the Late Bronze Age and the intersections of biblical literature with other ancient texts

Sacred Marriages Martti Nissinen, Risto Uro, 2008-06-30 The title of this volume Sacred Marriages consciously plays with the traditional concept of sacred marriage but the plural form sacred marriages gives the reader an idea that something more is at stake here than a monomaniacal idea of manifestations deriving from a single prototype Following the guidelines of one of the contributors Ruben Zimmermann the editors tentatively define sacred marriage as a real or symbolic union of two complementary entities imagined as gendered in a religious context Sacred marriages plural then refers to various expressions of this kind of union in different cultures that seek to overcome to cite Zimmermann again the great dualism of human and cosmic existence The subtitle indicates that the contributors are primarily interested in different aspects of the divine human sexual metaphor that is the imagining and reenactment of a gendered relationship between the human and divine worlds This metaphor which is essentially about relationship rather than sexual acts can find textual ritual mythical and social expressions in different times and places Indeed the sacred marriage ritual itself should be considered not a manifestation of the sacralized power of sexuality experienced in sexual intercourse but one way of objectifying the divine human sexual metaphor
