EachOneTeachTen Namya Joshi, 2022-09-30 There is no girl or boy gamer A gamer is a gamer I am Namya Joshi and have spent the last four years designing and delivering free of cost coding workshops for more than 10 000 teachers young people especially girls in India and all over the world as well as empowering other young people to run their own coding clubs I have raised awareness about the social issues using game based learning with STEM My parents are from the field of IT And if I go by people s perception it s quite obvious I will pursue the same field as it is genetic But my purpose has always been very clear that why do we see very less girls in this field You will see boys dominating the field of computer sciences and field of IT Dreams come true only when you believe in them and meeting Satya Nadella the CEO of Microsoft a man with exceptional leadership and delivery skills was one such dream This lockdown gave me strength and the skills I learned paved the way for me to start the GirlsInStem club This was a perfect example of my credo EachOneTeachTen For my ongoing efforts of creating and empowering others I was honoured with the Pradhan Mantri Rastriya Bal Puraskar India s highest civilian award for an individual under the age of 18 years old When we inspire girls to pursue careers in STEM a glass ceiling will vanish I was inspired by an incident Who knows the next person out of you reading might be here have faith and belief and see magic happening in your life *The Design of Childhood* Alexandra Lange, 2018-06-12 Pulitzer Prize

winning design critic Alexandra Lange s eye opening exploration of how children s playthings and physical surroundings affect their development from building blocks to city blocks Parents obsess over their children s playdates kindergarten curriculum and every bump and bruise but the toys classrooms playgrounds and neighborhoods little ones engage with are just as important These objects and spaces encode decades even centuries of changing ideas about what makes for good

child rearing and what does not Do you choose wooden toys or plastic or increasingly digital What do youngsters lose when seesaws are deemed too dangerous and slides are designed primarily for safety How can the built environment help children cultivate self reliance In these debates parents educators and kids themselves are often caught in the middle Now prominent design critic Alexandra Lange reveals the surprising histories behind the human made elements of our children s pint size landscape Her fascinating investigation shows how the seemingly innocuous universe of stuff affects kids behavior values and health often in subtle ways And she reveals how years of decisions by toymakers architects and urban planners have helped and hindered American youngsters journeys toward independence Seen through Lange s eyes everything from the sandbox to the street becomes vibrant with buried meaning The Design of Childhood will change the way you view your children s world and your own

Smart Cities and Smart Spaces: Concepts, Methodologies, Tools, and Applications Management Association, Information Resources,2018-09-07 As populations have continued to grow and expand many people have made their homes in cities around the globe With this increase in city living it is becoming vital to create intelligent urban environments that efficiently support this growth and simultaneously provide friendly and progressive environments to both businesses and citizens alike Smart Cities and Smart Spaces Concepts Methodologies Tools and Applications is an innovative reference source that discusses social economic and environmental issues surrounding the evolution of smart cities Highlighting a range of topics such as smart destinations urban planning and intelligent communities this multi volume book is designed for engineers architects facility managers policymakers academicians and researchers interested in expanding their knowledge on the emerging trends and topics involving smart cities

Video Games and Environmental Humanities Kelly I. Aliano,Adam Crowley,2024-10-21 This edited collection investigates topics related to environmental humanities through their inclusion exploration or critique in contemporary video games It focuses on how video games are a site for creating and interacting within environments with analysis that showcases how environments are shaped within video games as well as serve as a reflection of our real world This crossroad between the virtual and the real allows us to consider the ways in which the concepts theories and issues facing our real world environment can be understood and studied through video games particularly via the power of interactive play to teach This book looks into how video games might empower their players to make real world change through their immersive environments Finally the volume offers a consideration of ecological crises through an exploration of post apocalyptic narratives in a wide variety of video games This close textual analysis of video game narratives and play structures allows insight into how and why such stories were crafted and explores the various intersections between these fictional play environments and the conditions of our real world
