Lapbook - Notebook Pages

On the following pages are lapbook templates for the human body systems. Cut the pages out on the solid line and fold along the dotted line.

The images can go either on the outside - with the students writing the body systems on the inside to check to make sure they know the terminology. Or, alternatively, they can be folded the opposite way with the images on the inside if that suits your purposes better.

These are then glued into a file folder (the lapbook) or onto plain paper for the students to add to their science notebooks.
