**Higher Education Marketing in Africa** Emmanuel Mogaji, Felix Maringe, Robert Ebo Hinson, 2020-05-20 This book explores the key players challenges and policies affecting higher education in Africa. It also explores the marketing strategies and the students selection process providing theoretical and practical insights into education marketing in Africa. In particular it focuses on the competition for students. The growing number of student enrolments the public sector's inability to meet the ever increasing demands and new private universities springing up mean that it is essential for universities to identify their market and effectively communicate their messages. Although there has been substantial theoretical research to help shed light on students choices and universities marketing strategies little work has been undertaken on higher education in the African context. Filling that gap in the research while at the same time acknowledging the regional differences in Africa this book offers empirical insights into the higher education market across the continent

*STRATEGIC DIRECTIONS OF MARKETING ACTIVITIES OF AGRICULTURAL ORGANIZATIONS* Bondarenko V., Lutsii O., Lutsii I., Riabchyk A., Vyshnivska B., Nahorna O., Barylovych O., Timchenko O., Golovnina O., Збарський В.К., Авраменко Р.Ф., Степанець І.П., Мاستило А.Ф., Майстренко В.І., 2023-11-02 The current state of development of the domestic economy is characterized by its crisis nature caused by the influence of external and internal environment factors. In the context of the economic crisis the degree of market uncertainty is sharply increasing which negatively affects the activities of individual enterprises the industry and the economy of Ukraine as a whole. These problems are particularly acute for agricultural enterprises since they must take into account both the peculiarities of the competitive market environment and the specifics of the industry. That is why there is a need to analyze the theoretical and analytical foundations of marketing activities of agricultural enterprises with a view to identifying the main ways to increase the efficiency of marketing measures to improve their economic activities. In the period of formation of market relations Ukrainian enterprises faced a number of serious problems both at the macro and micro level. Nowadays the marketing activities of an agricultural enterprise must develop harmoniously and in the face of instability have a developed strategy for survival in a situation that will ensure stable functioning in the market. At present there are many types of enterprise strategies that have historically been formed during the period of marketing formation of enterprise activities but in order to develop an enterprise's own strategy it is necessary to take into account a large number of factors that are dynamic in space and time including the regulatory and methodological regulation of the process of forming a marketing strategy. The result of the study is the development of

proposals for improving the regulatory framework which directly affects the formation of the marketing strategy of agricultural enterprises In the course of the study the author improves the technology of forming an enterprise s marketing strategy as a set of interdependent mechanisms tools and processes which unlike the existing ones provides for achieving the strategic goals of marketing activities by an economic entity on the basis of selection and choice of alternative options for its implementation The article proposes to consider the main factors influencing the implementation of the marketing strategy at enterprises of Khmelnytskyi region as well as the regulatory and methodological directions for improving marketing activities at the macro and micro levels It is also proposed to use the methodology for determining the impact of macroand micro environment factors on the marketing activities of agricultural enterprises The implementation of strategic development of agricultural enterprises on a market basis strengthening of competition and integration into the global economic space give priority to the effective functioning of agricultural producers In a market environment the economic efficiency of agricultural market participants largely depends on the development of effective marketing strategies for agricultural enterprises the implementation of a flexible pricing policy the organization of optimal sales channels for agricultural products the ability to navigate the environment and anticipate major development trends In the market environment demand plays a decisive role and supply of agricultural products is organized in relation to it Prioritizing supply involves elements of risk and uncertainty Therefore the formation and development of the marketing strategy of agricultural enterprises is particularly relevant It is also worth noting that in Ukraine there are practically no scientifically based approaches to the development of the marketing strategy of agricultural enterprises its formation and practical use in the market environment At the beginning of a full scale war during a period of chaos and uncertainty the vast majority of businesses companies and brands became virtually helpless as traditional approaches to marketing lost their meaning In the first days of the war social media were filled with pre war information against the backdrop of military realities which looked rather incorrect At that time most companies refused to interact with customers and chose a wait and see strategy but once they recovered they began to return to work Our society was in crisis even before the Russian invasion and having barely overcome the powerful waves of the COVID 19 pandemic we were gradually adapting to the new realities of life Even before the full scale war Ukrainians had been learning to adapt to stressful conditions resulting in new consumption trends living now even in the face of instability not putting anything off for later getting your life together and forcing changes in traditional habits During any shocks both during the COVID 19 pandemic and in wartime it is worth remembering the need to apply a meaningful aggressive and effective corporate marketing policy in your practice Traditionally marketing demand has been driven by overproduction and oversupply in a highly competitive market However it is necessary to understand that any fundamental change in the market environment crisis pandemic war will lead to the main problem that a business owner will face the limitation of the solvency of market demand in the quantitative and value categories Accordingly on the one hand companies will face problems with

product sales and profit margins and on the other hand aggressive behavior of competitors with a limited market size In this case the consumer has many options at the best price and therefore he has absolute power over the seller's firm Therefore in order to eliminate or overcome such problems it is necessary to skillfully build marketing plans for the strategic perspective taking into account possible risks Today there is a need for a thorough study of strategic marketing in wartime and the postwar period The results of the research presented in the monograph are determined within the framework of the initiative topic of the Department of Marketing and International Trade of the National University of Life and Environmental Sciences of Ukraine Development of Marketing at Agricultural and Processing Enterprises state registration number 0120U100630 Transferring Information Literacy Practices Billy Tak Hoi Leung, Jingzhen Xie, Linlin Geng, Priscilla Nga Ian Pun, 2019-05-28 This book focuses on information literacy for the younger generation of learners and library readers It is divided into four sections 1 Information Literacy for Life 2 Searching Strategies Disciplines and Special Topics 3 Information Literacy Tools for Evaluating and Utilizing Resources 4 Assessment of Learning Outcomes Written by librarians with wide experience in research and services and a strong academic background in disciplines such as the humanities social sciences information technology and library science this valuable reference resource combines both theory and practice In today's ever changing era of information it offers students of library and information studies insights into information literacy as well as learning tips they can use for life ICBAE 2022 Bima Cinintya Pratama, Sarkar Kabir, Hassan Mohammad Kabir, Rizal Yaya, Salina Kassim, Judit Kovács, Naelati Tubastuvi, Tiara Pandansari, Azmi Fitriati, Wida Purwidiyanti, Suryo Budi Santoso, 2022-08-23 The 3rd International Conference of Business Accounting and Economics ICBAE 2022 continued the agenda to bring together researchers academics experts and professionals in examining selected themes by applying multidisciplinary approaches This conference is the third intentional conference held by the Faculty of Economics and Business Universitas Muhammadiyah Purwokerto and it is a bi annual agenda of this faculty In 2022 this event will be held on 10-11 August at the Faculty of Economics and Business Universitas Muhammadiyah Purwokerto The theme of the 3rd ICBAE UMP 2022 is Innovation in Economic Finance Business and Entrepreneurship for Sustainable Economic Development It is expected that this event may offer a contribution for both academics and practitioners to conduct research related to Business Accounting and Economics Related Studies Each contributed paper was refereed before being accepted for publication The double blind peer review was used in the paper selection *Smart Business and Technologies* Souad Najoua Lagmiri, Mohamed Lazaar, Fouad Mohammed Amine, 2025-05-03 This book covers the theory applications and viewpoints on the most recent and upcoming advancements in the fields of complex processes decision making control and systems and networks In the well known lecture notes in networks and systems series *Smart Business and Technologies* is the most recent entry The cutting edge research presented at the International Conference on Smart Business and technology ICSBT 24 is compiled in this volume which highlights creative solutions new developments and useful applications in the domains of
