Leni The Life And Work Of Leni Riefenstahl:

Leni Steven Bach,2007 An exceptional work of historical investigation Leni is the definitive biography of one of the most fascinating and controversial personalities of the 20th century Leni Riefenstahl the woman best known as Hitler's filmmaker

Leni Steven Bach,2007 Leni Riefenstahl the woman best known as Hitler's filmmaker is one of the most controversial personalities of the twentieth century Her story is one of huge talent and huger ambition one that probes the sometimes blurred borders dividing art and beauty from truth and humanity Two of her films Olympia and Triumph of the Will are universally regarded as among the greatest and most innovative documentaries ever made but they are also insidious glorifications of Hitler and the Third Reich Relying on new sources including interviews with her colleagues and intimate friends as well as on previously unknown recordings of Riefenstahl herself biographer Bach untangles the truths and lies behind this gifted woman's lifelong self vindication as an apolitical artist who claimed she knew nothing of the Holocaust and denied her complicity with the criminal regime she both used and sanctified From publisher description

Leni Riefenstahl Rainer Rother,2002-01-01 Leni Riefenstahl who will be one hundred years old in 2002 is one of the most important and controversial film makers of the twentieth century This translation of Rainer Rother's exploration of her life focuses on both Riefenstahl the woman and Riefenstahl the director Although she was admired by such greats as Walt Disney Charlie Chaplin and Andy Warhol Riefenstahl's achievements have been clouded by the fact that she operated within the context of Nazi Germany and was inextricably linked with the Third Reich BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved

Leni Riefenstahl Jürgen Trimborn,2008-01-22 Dancer actress mountaineer and director Leni Riefenstahl's uncompromising will and audacious talent for self promotion appeared unmatched until 1932 when she introduced herself to her future protector and patron Adolf Hitler Known internationally for two of the films she made for him Triumph of the Will and Olympia Riefenstahl's demanding and obsessive style introduced unusual angles new approaches to tracking shots and highly symbolic montages Despite her lifelong claim to be an apolitical artist Riefenstahl's monumental and nationalistic vision of Germany's traditions and landscape served to idealize the cause of one of the world's most violent and racist regimes Riefenstahl ardently cast herself as a passionate young director who caved to the pressure to serve an all powerful Führer so focused on reinventing the cinema that she didn't recognize the goals of the Third Reich until too late Jürgen Trimborn's revelatory biography celebrates this charismatic and adventurous woman who lived to 101 while also taking on the myths surrounding her With refreshing distance and detailed research Trimborn presents the story of a stubborn and intimidating filmmaker who refused to be held accountable for her role in the Holocaust but continued to inspire countless photographers and filmmakers with her artistry

Rahman, Michael Saman, Charlotte Szilagyi, 2020-05-15 Imagining Blackness in Germany and Austria offers a breadth of fresh and provocative perspectives on the ways that blackness has been configured and instrumentalized in cultural productions from around the modern German speaking world The essays collected here examine material ranging from eighteenth century literary and philosophical landmarks to Viennese modernist art from colonial missionary literature to twentieth century sculpture film and music from National Socialist ideology to Leftist counterdiscourse Spanning a range of literary visual and theoretical discourses these essays identify crucial moments within radical paradigm shifts in the ways the concept of blackness has been employed by European intellectuals One shift can be observed within the notion of blackness itself which progresses from a state that precedes political articulation to one that is negotiated discursively Another shift sees conservative notions of race give way to a recodification of blackness as American rather than African In this way blackness becomes linked to the advent of a hegemonic power A further shift can be discerned in the ways nationalist discourses of colonial supremacy and of an impending darkening of Europe progress toward the perception of blackness as an entry point into the cultural complex known as Amerika into mass culture and into European modernity itself With an introduction by Werner Sollors this collection provides valuable compelling and timely material and insight for scholars and students interested in modern German speaking culture African American and African Diaspora studies and their

Hitler and Film Bill Niven, 2018-04-24 An exposé of Hitler's relationship with film and his influence on the film industry. A presence in Third Reich cinema, Adolf Hitler also personally financed, ordered, and censored films and newsreels and engaged in complex relationships with their stars and directors. Here Bill Niven offers a powerful argument for reconsidering Hitler's fascination with film as a means to further the Nazi agenda. In this first English language work to fully explore Hitler's influence on and relationship with film in Nazi Germany, the author calls on a broad array of archival sources. Arguing that Hitler was as central to the Nazi film industry as Goebbels, Niven also explores Hitler's representation in Third Reich cinema, personally and through films, focusing on historical figures with whom he was associated and how Hitler's vision for the medium went far beyond straight propaganda. He aimed to raise documentary film to a powerful art form, rivaling architecture in its ability to reach the masses.

Hitler's People Richard J. Evans, 2024-08-13 Named a Best Book of the Year by Kirkus Reviews and Air Mail. A fascinating and instructive book, elegantly written and perceptive. *Wall Street Journal*: Kaleidoscopic. A fascinating exploration of individual agency that never loses sight of the larger context. Just the kind of probing, nuanced, and unsparing study to help us think things through. *The New York Times*: Through a connected set of biographical portraits of key Nazi figures that follows power as it radiated out from Hitler to the inner and outer circles of the regime's leadership, one of our greatest historians answers the enduring question: how does a society come to carry out a program of unspeakable evil? Richard Evans, author of the acclaimed *The Third Reich Trilogy* and over two dozen other volumes on modern Europe, is our preeminent scholar of Nazi Germany. Having spent half a century searching for the truths behind one of the most horrifying episodes in human history, in *Hitler's People* he brings us back to the original site of the Nazi movement: namely, the lives of its most important members. Working in concentric circles out from Hitler and his closest allies, Evans forms a typological framework of Germany's society under Nazi rule, from the top down. With a novelist's eye for detail, Evans explains the Third Reich through the personal failings and professional ambitions of its members, from its most notorious deputies like Goebbels, the regime's propagandist, and Himmler.

the Holocaust's chief architect to the crucial enforcers and instruments of the Nazi agenda that history has largely forgotten like the schoolteacher Julius Streicher and the actress Leni Riefenstahl Drawing on a wealth of recently unearthed historical sources Hitler's People lays bare the inner and outer lives of the characters whose choices led to the deaths of millions Nearly a century after Hitler's rise the leading nations of the West are once again being torn apart by a will to power By telling the stories of these infamous lives as human lives Evans asks us to grapple with the complicated nature of complicity showing us that the distinctions between individual and collective responsibility and even between pathological evil and rational choice are never easily drawn
