réformation jusqu'au temps présent ... Deuxième édition, revue et corrigée Guillaume de FÉLICE, 1861 **The Royal Financial Administration and the Prosecution of Crime in France, 1670-1789** Albert N. Hamscher, 2012 The Royal Financial Administration and the Prosecution of Crime in France 1670 1789 explores the French monarchy's role in financing criminal prosecutions in the royal courts of the realm the payment of criminal frais de justice in the vocabulary of the ancien régime between 1670 and 1789 that is from the codification of criminal judicial procedure in the early period of Louis XIV's personal rule to the outbreak of the French Revolution The subject brings together three areas of scholarly inquiry criminal justice royal administration and the management of the crown's finances A central goal of the study is to provide factual information and interpretive insights on each of these topics and to explain the relationship of each to the others over a long time period The book contributes to existing scholarship in four ways First although each of the major dimensions of the inquiry the operation of the criminal justice system the conduct of the royal administration and the management of the monarchy's finances has a large and increasingly sophisticated historical literature this is the first study to combine them in a systematic way Second the long time period covered in the book not only enables the historian to distinguish gradual from rapid change but it also allows the reader to view how the system functioned in different historical contexts Third the study is based on archival sources throughout France This comprehensive approach permits the identification of elements of a common experience without sacrificing attention to important aspects of regional diversity Finally with respect to the sources themselves the range is broad encompassing regulatory acts and decisions of the king's councils administrative correspondence at the central regional and in some cases local levels financial accounts and related papers and court records from the major appellate courts and from several lower courts as well An appendix of 33 tables lists figures of annual expenditure and other pertinent financial operations for each of the major financial districts of the kingdom **Le Clergé de France, ou beaux exemples de vertus chrétiennes donnés par des ecclésiastiques depuis le milieu du siècle dernier, et particulièrement durant la persécution révolutionnaire. [Edited by J. D.]** Church of France (FRANCE). Clergy, 1857 **France on the Eve of Revolution** John Lough, 2016-06-10 Before the Terror and then the Napoleonic Wars made it impracticable to travel through France many young British men and women were able to watch at first hand the changes taking place in French society and the agitations that were becoming increasingly loud for reform This book originally published in 1987 is a study of France in these crucial years seen through the eyes of the travellers It marries the travellers' accounts to analysis of the political state of France to produce a book equally illuminating of British taste and attitudes to France and of the French political and social scene **Programme économique du Sud-Ouest de la France. Les seize impôts de la vigne. Traités de commerce, Octrois, Canaux du Midi, etc** Alcée DURRIEUX, 1870 **Histoire classique des Reines, Impératrices et Régentes de France d'après les meilleurs mémoires, renfermant ... un Dictionnaire des Femmes qui se sont fait un nom dans l'histoire, les sciences, les lettres, depuis la création jusqu'à nos jours**

Nationalism and the Cinema in France Hugo Frey, 2014-07-01 It is often taken for granted that French cinema is intimately connected to the nation's sense of identity and self-confidence. But what do we really know about that relationship? What are the nuances, insider codes and hidden history of the alignment between cinema and nationalism? Hugo Frey suggests that the concepts of the political myth and the film event are the essential theoretical reference points for unlocking film history. **Nationalism and the Cinema in France** offers new arguments regarding those connections in the French case, examining national elitism, neo-colonialism and other exclusionary discourses as well as discussing for the first time the subculture of cinema around the extreme right Front National. Key works from directors such as Michel Audiard, Jean-Luc Godard, Jean-Pierre Melville, Marcel Pagnol, Jean Renoir, Jacques Tati, François Truffaut and others provide a rich body of evidence. Travels in France, during the years 1814-15 [by sir A. Alison and P.F. Tytler]. sir Archibald Alison (1st bart.), 1815 **Catholicism, Politics and Society in Twentieth-Century France** Kay Chadwick, 2000-09-01 Catholicism once the protean monster still functions as a complex component of French identity. No consideration of modern France would be complete without reference to the enduring impact and influence of Catholicism on the life of the nation. This volume sets out to capture some of the variety and significance of the Catholic phenomenon in twentieth-century secular France and to express something of its extraordinary vitality and interest. Each contribution focuses on a specific theme or period crucial to an understanding of the role played by French Catholics and their Church. Collectively, these studies reveal that Catholics were involved in almost every event of consequence and voiced an opinion on almost every issue. Equally, the volume offers a collage of insights which reflects the fragmentation of Catholic activity and attitudes as the century progressed. Being Catholic in modern France no longer means the espousal of a particular political or social agenda. Nor does it necessarily mean regular and traditional religious observance or even strict adherence to the dictates of the Church. Modern French Catholicism truly has many mansions.
