digital age as well as that of the new realist tendency in world cinema of the last three decades In addition he traces from a northern perspective a secular religious tradition in Francophone European film and philosophy from Bresson and Pialat via Bazin Deleuze and Godard to the Dardennes and Dumont while critiquing this tradition for its frequent use of a humanist vocabulary of grace for a secular world Once a cradle of the Industrial Revolution the Franco Belgian Nord faced economic crisis for most of the twentieth century Miraculous Realism demonstrates that the Cin ma du Nord s rise to prominence resulted from the region s endeavor to reinvent itself economically and culturally at the crossroads of Europe after decades of recession This book not only makes a major contribution to the field but also creates a new area in this field the opening up of discussion of the Cin ma du Nord in geopolitical historical and theoretical terms through a blend of fine close reading and broader commentary Sarah Cooper author of *The Soul of Film Theory*
