The Papers of Martin Luther King, Jr., Volume I Martin Luther King Jr., 2023-11-15 More than two decades since his death Martin Luther King Jr's ideas his call for racial equality his faith in the ultimate triumph of justice and his insistence on the power of nonviolent struggle to bring about a major transformation of American society are as vital and timely as ever The wealth of his writings both published and unpublished that constitute his intellectual legacy are now preserved in this authoritative chronologically arranged multi volume edition Faithfully reproducing the texts of his letters speeches sermons student papers and articles this edition has no equal Volume One contains many previously unpublished documents beginning with the letters King wrote to his mother and father during his childhood We read firsthand his surprise and delight in his first encounter during a trip to Connecticut with the less segregated conditions in the North Through his student essays and exams we discover King's doubts about the religion of his father and we can trace his theological development We learn of his longing for the emotional conversion experience that he witnessed others undergoing and we follow his search to know God through study at theological seminaries Throughout the first volume we are treated to tantalizing hints of his mature rhetorical abilities as in his 1945 letter to the Atlanta Constitution that spoke out against white racism Each volume in this series contains an introductory essay that traces the biographical details of Dr King's life during the period covered Ample annotations accompany the documents Each volume also contains a chronology of key events in his life and a Calendar of Documents that lists all important extant documents authored by King or by others including those that are not transcribed in the document itself The preparation of this edition is sponsored by the Martin Luther King Jr Center for Nonviolent Social Change in Atlanta with Stanford University and Emory University More than two decades since his death Martin Luther King Jr's ideas his call for racial equality his faith in the ultimate triumph of justice and his insistence on the power of nonviolent struggle to bring about a major transformation of American soc

A New Approach to Differential Geometry using Clifford's Geometric Algebra John Snýgg, 2011-12-09 Differential geometry is the study of the curvature and calculus of curves and surfaces A New Approach to Differential Geometry using Clifford's Geometric Algebra simplifies the discussion to an accessible level of differential geometry by introducing Clifford algebra This presentation is relevant because Clifford algebra is an effective tool for dealing with the rotations intrinsic to the study of curved space Complete with chapter by chapter exercises an overview of general relativity and brief biographies of historical figures this comprehensive textbook presents a valuable introduction to differential geometry It will serve as a useful resource for upper level undergraduates beginning level graduate students and researchers in the algebra and physics communities

Critical Race Theory in Mathematics Education Julius Davis, Christopher Jett, 2019-04-30 Critical Race Theory in Mathematics Education brings together scholarship that uses critical race theory CRT to provide a comprehensive understanding of race racism social justice and experiential knowledge of African Americans mathematics education CRT has

gained traction within the educational research sphere and this book extends and applies this framework to chronicle the paths of mathematics educators who advance and use CRT This edited collection brings together scholarship that addresses the racial challenges thrust upon Black learners and the gatekeeping nature of the discipline of mathematics Across the ten chapters scholars expand the uses of CRT in mathematics education and share insights with stakeholders regarding the racialized experiences of mathematics students and educators Collectively the volume explains how researchers practitioners and policymakers can use CRT to examine issues of race racism and other forms of oppression in mathematics education for Black children and adults

Higher Homotopy Structures in Topology and Mathematical Physics James D. Stasheff, John McCleary, 1999 Since the work of Stasheff and Sugawara in the 1960s on recognition of loop space structures on H spaces the notion of higher homotopies has grown to be a fundamental organizing principle in homotopy theory differential graded homological algebra and even mathematical physics This book presents the proceedings from a conference held on the occasion of Stasheff's 60th birthday at Vassar in June 1996 It offers a collection of very high quality papers and includes some fundamental essays on topics that open new areas
