Textual and Contextual Analysis in Empirical Translation Studies Sara Laviosa, Adriana Pagano, Hannu Kemppanen, Meng Ji, 2016-07-28 This book presents the state of art research in ETS by illustrating useful corpus methodologies in the study of important translational genres such as political texts literature and media translations Empirical Translation Studies ETS represents one of the most exciting fields of research It gives emphasis and priority to the exploration and identification of new textual and linguistic patterns in large amounts of translation data gathered in the form of translation data bases A distinct feature of current ETS is the testing and development of useful quantitative methods in the study of translational corpora In this book Hannu Kemppanen explores the distribution of ideologically loaded keywords in early Finnish translation of Russian political genres which yielded insights into the complex political relation between Finland and Russia in the post Soviet era Adriana Pagano uses multivariate analysis in the study of a large scale corpus of Brazilian fiction translations produced between 1930s 1950s which is known as the golden age of Latin American translation The statistical analysis detected a number of translation strategies in Brazilian Portuguese fictional translations which point to deliberate efforts made by translators to re frame original English texts within the Brazilian social and political context in the first three decades under investigation Meng Ji uses exploratory statistical techniques in the study of recent Chinese media translation by focusing three important media genres i e reportage editorial and review The statistical analysis effectively detected important variations among three news genres which are analysed in light of the social and communicative functions of these news genres in informing and mobilising the audience in specific periods of time in Mainland China

**City of Demons** Dayna S. Kalleres, 2015-10-13 Although it would appear in studies of late antique ecclesiastical authority and power that scholars have covered everything an important aspect of the urban bishop has long been neglected his role as demonologist and exorcist When the emperor Constantine

made Christianity the official religion of the realm bishops and priests everywhere struggled to Christianize the urban spaces still dominated by Greco Roman monuments and festivals During this period of upheaval when congregants seemingly attended everything but their own orthodox church many ecclesiastical leaders began simultaneously to promote aggressive and insidious depictions of the demonic In *City of Demons* Dayna S Kalleres investigates this developing discourse and the church sponsored rituals that went along with it showing how shifting ecclesiastical demonologies and evolving practices of exorcism profoundly shaped Christian life in the fourth century

**Translation of Contemporary Taiwan Literature in a Cross-Cultural Context** Szu-Wen Kung,2021-03-01 Translation of Contemporary Taiwan Literature in a Cross Cultural Context explores the social cultural and linguistic implications of translation of Taiwan literature for transnational cultural exchange It demonstrates principally how asymmetrical cultural relationships mediation processes and ideologies of the translation players constitute the culture specific translation activity as a highly contested site where translation can reconstruct and rewrite the literature and the culture it represents Four main theoretical themes are explored in relation to such translation activity sociological studies cultural and rewriting studies English as a lingua franca and social and performative linguistics These offer insightful perspectives on the translation as an interpretive encounter between not only two languages two cultural systems and assumptions taking place but also among various translation mediators This book will be useful to scholars and students working on translation and cultural studies China Taiwan literature studies and literature studies in cross cultural contexts

**The Penguin Pocket Dictionary of Babies' Names** David Pickering,2005-08-25 What s in a name Rather more than you might at first suspect for names are steeped in history and myth and have much to tell us about our past our beliefs even our personality traits The Penguin Pocket Dictionary of Babies Names takes a close look at 3500 names explaining origins and meanings showing how some have changed in popularity and use over time and providing all the diminutive and variant forms Part of Penguin s major new series of reference titles ranging from Spanish and French dictionaries to books on spelling and quotations

**Handbook of Translation Studies** Yves Gambier,Luc van Doorslaer,2021-10-15 Up to now the Handbook of Translation Studies HTS consisted of four volumes all published between 2010 and 2013 Since research in TS continues to grow and expand this fifth volume was added in 2021 The HTS aims at disseminating knowledge about translation interpreting localization adaptation etc and providing easy access to a large range of topics traditions and methods to a relatively broad audience not only students who prefer such user friendliness but also researchers and lecturers in Translation Studies Translation Interpreting professionals as well as scholars and experts from other adjacent disciplines All articles in HTS are written by specialists in the different subfields and are peer reviewed

**Describing Cognitive Processes in Translation** Maureen Ehrensberger-Dow,Birgitta Englund Dimitrova,Séverine Hubscher-Davidson,Ulf Norberg,2015-09-15 This volume addresses translation as an act and an event having as its main focus the cognitive and mental processes of the translating or interpreting individual in the act of

translating while opening up wider perspectives by including the social situation in explorations of the translation process First published as a special issue of Translation and Interpreting Studies issue 8 2 2013 the chapters in this volume deal with various aspects of translators and interpreters observable and non observable processes thus encouraging further research at the interface of cognitive and sociological approaches in this area In terms of those distinctions the chapters can be characterized as studies of the actual cognitive translation acts of other processes related to the translation acts or of processes that are related to the sociological translation event

**Corpus-based Translation and Interpreting Studies: From description to application / Estudios traductológicos basados en corpus: de la descripción a la aplicación** María Teresa Sánchez Nieto,2014-12-05 The contributions in this volume illustrate some noteworthy tendencies in current Corpus based Translation and Interpreting Studies the reflection on the state of research on the characteristics of translated language the extension of descriptive proposals into minority languages the diversification of applied proposals and the growing importance of corpora for the study of interpreting Las aportaciones de este volumen representan algunas tendencias destacables en los actuales estudios traductológicos basados en corpus la

reflexi n sobre el estado de la investigaci n en torno a las caracter sticas de la lengua traducida la extensi n de las propuestas descriptivas a lenguas minoritarias la diversificaci n de las propuestas aplicadas y la creciente importancia de los corpus para el estudio de la interpretaci n *Reduced Parenthetical Clauses as Mitigators* Stefan Schneider,2007-02-01 While

parentheticals attract constant attention they very rarely constitute the main subject of monographs This book provides a comprehensive account of reduced parenthetical clauses RPCs in three Romance languages Typical French RPCs are je crois disons je dirais je pense je sais pas and je trouve The research draws on 22 corpora of spoken French Italian and Spanish comprising a total amount of 3 975 500 words Its results consist in a typology of the relevant expressions in the three languages in the understanding of their pragmatic function and of the factors influencing their use and in the description of their syntactic and prosodic properties Other findings are that RPCs are not restricted to statements but also occur in questions and that belief verbs are not as frequent as commonly assumed Although the book is about Romance parentheticals its conclusions are relevant for other languages **Seeing through Multilingual Corpora** Stig Johansson,2007-02-14

Through electronic corpora we can observe patterns which we were unaware of before or only vaguely glimpsed The availability of multilingual corpora has led to a renewal of contrastive studies We gain new insight into similarities and differences between languages at the same time as the characteristics of each language are brought into relief The present book focuses on the work in building and using the English Norwegian Parallel Corpus and the Oslo Multilingual Corpus Case studies are reported on lexis grammar and discourse A concluding chapter sums up problems and prospects of corpus based contrastive studies including applications in lexicography translator training and foreign language teaching Though the main focus is on English and Norwegian the approach should be of interest more generally for corpus based contrastive research and for language studies in general Seeing through corpora we can see through language **The Rise of Conference**

**Interpreting in China** Irene A. Zhang,Riccardo Moratto,2023-11-03 In this landmark project Professor Zhang and Professor Moratto piece together the history of how conference interpreting developed as a profession in China after the reform and opening up of the late 1970s Based on interviews with the alumni of the early efforts to develop conference interpreting capabilities between Chinese and English and French the authors illuminate the international programs and relationships which were instrumental in bringing this about While paying tribute to the earliest interpreters who interpreted for the first generation CPC leaders including Mao Zedong Zhou Enlai and Deng Xiaoping they track key cooperative projects between Chinese ministries and both the United Nations and European Union as well as China s domestic efforts which developed into today s formal programs at major universities An essential resource for scholars and students of conference interpreting in China alongside its sister volume *Conference Interpreting in China Practice Training and Research* **Literary Digital**

**Stylistics in Translation Studies** Anna Maria Cipriani,2023-11-20 This book presents a systematic literary comparison of the retranslations by adopting a mixed method and bottom up inductive approach by developing an empirical corpus

approach This corpus is specifically tailored to identify and study linguistic and non linguistic modernist features throughout the texts such as stream of consciousness indirect interior monologue and free indirect speech All occurrences are analysed quantitatively in the computations of inferential and comparative statistics such as tests of time trends lexical variety and lexical frequency The target texts are digitised and the resulting text files are then analysed using a bespoke novel computer program capable of the functions not provided by commercially available software such as WordSmith Tools and WMatrix This methodology enables in depth explorations of micro and macro textual features and allows a mixed method approach combining close reading qualitative analysis with systematic quantitative comparisons The empirical study of the digital corpus of eleven Italian re translations of Virginia Woolf s *To the Lighthouse* identifies a progressive source text orientation only in a relatively few aspects of a few target texts The translators presence affects all the examined target texts in terms of register and style under the influence of the Italian translation norms usually attributed to the translation of literary classics Its intended readership comprises students of the mentioned fields and the general public of readers editors and publishers

**The Dao of Translation** Douglas Robinson, 2015-06-12 The Dao of Translation sets up an East West dialogue on the nature of language and translation and specifically on the unknown forces that shape the act of translation To that end it mobilizes two radically different readings of the Daodejing formerly romanized as the Tao Te Ching the traditional mystical reading according to which the Dao is a mysterious force that cannot be known and a more recent reading put forward by Sinologists Roger T Ames and David L Hall to the effect that the Dao is simply the way things happen Key to Ames and Hall s reading is that what makes the Dao seem both powerful and mysterious is that it channels habit into action or what the author calls social ecologies or icoses The author puts Daoism and ancient Confucianism into dialogue with nineteenth century Western theorists of the sign Charles Sanders Peirce and Ferdinand de Saussure and their followers in order to develop an icotic understanding of the tensions between habit and surprise in the activity of translating The Dao of Translation will interest linguists and translation scholars This book will also engage researchers of ancient Chinese philosophy and provide Western scholars with a thought provoking cross examination of Eastern and Western perspectives

*Corpora and Discourse* Annelie Adel, Randi Reppen, 2008-06-26 This book brings together contributions from a diverse collection of scholars who explore different ways of combining corpus linguistics and discourse analysis studying discourse at the prosodic lexical and textual levels Both spoken and written discourse are investigated in a variety of settings including academia the workplace news and entertainment Not only does the volume offer a rich sample of English language discourse from around the world including international learner and non standard varieties of English but it also covers a range of topics and methods This book will be of particular interest to researchers and students specializing in discourse studies English linguistics and corpus linguistics *Corpus-based Analyses of the Problem Solution Pattern* Lynne Flowerdew, 2008-02-06 This book reports research on the Problem Solution rhetorical pattern which has to date received

very little attention in corpus based studies Insights from genre analysis and systemic functional grammar are also applied to the analysis of the Problem Solution pattern thus moving towards a more multi faceted analysis of corpus data The pattern is investigated in two specialized corpora of technically oriented report writing a professional corpus and a student corpus using a key word and key key word analysis Phraseological analyses of key words in both corpora are presented Data show that students writing lacks a range of lexico grammatical patternings for expressing the Problem and Solution elements of the pattern The book concludes with some pedagogic implications and applications of the findings Suggested concordancing activities are discussed within the context of key issues in the field of data driven learning
