Armstrong,2018-11-02 Collision Reconstruction Methodologies Volume 6A The last ten years have seen explosive growth in
the technology available to the collision analyst changing the way reconstruction is practiced in fundamental ways The
greatest technological advances for the crash reconstruction community have come in the realms of photogrammetry and
digital media analysis The widespread use of scanning technology has facilitated the implementation of powerful new tools to
digitize forensic data create 3D models and visualize and analyze crash vehicles and environments The introduction of
unmanned aerial systems and standardization of crash data recorders to the crash reconstruction community have enhanced
the ability of a crash analyst to visualize and model the components of a crash reconstruction Because of the technological
changes occurring in the industry many SAE papers have been written to address the validation and use of new tools for
collision reconstruction Collision Reconstruction Methodologies Volumes 1 12 bring together seminal SAE technical papers
