**Objectives:**

Memorandum and E-mail

Memorandum and E-mail are inter-office correspondences or central internal documents used for general messages such as notices, announcements or circulars. For large companies, they usually have either standardized memorandum forms, which can also move within divisions and branches of a company or electronic mail (E-mail), with the use of computer networks. E-mail whose format is similar to a memorandum can be utilized using a computer unit with modem and software to send messages electronically over networks connected by telephone lines and satellites.

**Movement of Memo and E-mail**

Memo and E-mail can move horizontally and vertically in a company; hence, they are considered vital means of dissemination which is very sure to be received by everyone in a company. Aside from this, they can also be considered written records or documents of the company. It must be remembered that the key people in the organization, though are not mentioned in the memorandum, should be furnished with all important memoranda to keep them abreast of what is happening in the agency.

A memoranda and E-mail messages do not have salutation and complimentary closing.

Parts of a Memorandum

Investigation of Illegal Or Improper Activities in Connection with 1996 Federal Election Campaign United States. Congress. Senate. Committee on Governmental Affairs,1998 *Patrick van Rensburg* Kevin Shillington,2020-07-01

Patrick van Rensburg 1931 2017 was an anti apartheid activist and self made alternative educationist whose work received international recognition with the Right Livelihood Award in 1981 Born in KwaZulu Natal into what he described as a very ordinary South African family that believed in the virtue of racism Van Rensburg became a self styled rebel who tirelessly pursued his own vision of a brighter future for emerging societies in post colonial southern Africa His emotional and intellectual struggle against his upbringing and cultural roots led him to reject his life of white privilege in South Africa Determined to prevent the emergence of a privileged black elite in post colonial society he devoted his life to implementing an alternative egalitarian approach to education focusing on quality and functional schooling for the majority Rewarded with the internationally prestigious Right Livelihood Award for his unique contribution to education he saw this work as a necessary tool of development Exiled from South Africa in 1960 because of his involvement in the London boycott campaign that gave birth to the Anti Apartheid Movement Van Rensburg moved to Botswana then Bechuanaland There he founded cooperatives provided vocational training and was among the earliest educationists to espouse the discipline of development studies Perhaps his best known legacy is the Swaneng Hill School which he founded to provide an educational home for primary school dropouts through a curriculum that combined theory and practice and academic and manual labour He involved his pupils in building their school running it providing their own food and making their own equipment and furniture Van Rensburg was an innovative and charismatic visionary who captured the zeitgeist of the late twentieth century and whose work and vision still have resonance for debates in educational policy today **What They Wished For** Lawrence J. McAndrews,2014-05-15 As a religious bloc Roman Catholics constitute the most populous religious denomination in the United States comprising one in four Americans With the election of John F Kennedy as president in 1960 they attained a political prominence to match their rapidly ascending socioeconomic and cultural profile From Vietnam to Iraq the civil rights movement to federal funding for faith based initiatives and from birth control to abortion American Catholics have won at least as often as they have lost What They Wished For by Lawrence J McAndrews traces the role of American Catholics in presidential policies and politics from 1960 until 2004 Though divided by race class gender and party Catholics have influenced issues of war and peace social justice and life and death among modern presidents in a profound way starting with the election of President Kennedy and expanding their influence through the intervening years with subsequent presidents McAndrews shows that American Catholics led by their bishops and in some cases their pope have been remarkably successful in shaping the political dialogue and at helping to effect policy outcomes inside and outside of Washington Indeed although they opened this era by helping to elect one of their own Catholic voters have gained so much influence and have

become so secure in their socioeconomic status and so confident in their political standing that they closed the era by rejecting one of their own voting for George W Bush over John Kerry in 2004

Small Wars, Big Data Eli Berman, Joseph H. Felter, Jacob N. Shapiro, 2020-07-14 How a new understanding of warfare can help the military fight today s conflicts more effectively The way wars are fought has changed starkly over the past sixty years International military campaigns used to play out between large armies at central fronts Today s conflicts find major powers facing rebel insurgencies that deploy elusive methods from improvised explosives to terrorist attacks Small Wars Big Data presents a transformative understanding of these contemporary confrontations and how they should be fought The authors show that a revolution in the study of conflict enabled by vast data rich qualitative evidence and modern methods yields new insights into terrorism civil wars and foreign interventions Modern warfare is not about struggles over territory but over people civilians and the information they might choose to provide can turn the tide at critical junctures The authors draw practical lessons from the past two decades of conflict in locations ranging from Latin America and the Middle East to Central and Southeast Asia Building an information centric understanding of insurgencies the authors examine the relationships between rebels the government and civilians This approach serves as a springboard for exploring other aspects

of modern conflict including the suppression of rebel activity the role of mobile communications networks the links between aid and violence and why conventional military methods might provide short term success but undermine lasting peace Ultimately the authors show how the stronger side can almost always win the villages but why that does not guarantee winning the war Small Wars Big Data provides groundbreaking perspectives for how small wars can be better strategized and favorably won to the benefit of the local population

Running Steel, Running America Judith Stein,2000-11-09 The history of modern liberalism has been hotly debated in contemporary politics and the academy Here Judith Stein uses the steel industry long considered fundamental to the U S economy to examine liberal policies and priorities after World War II In a provocative revision of postwar American history she argues that it was the primacy of foreign commitments and the outdated economic policies of the state more than the nation's racial conflicts that transformed American liberalism from the powerful progressivism of the New Deal to the feeble policies of the 1990s Stein skillfully integrates a number of narratives usually treated in isolation labor civil rights politics business and foreign policy while underscoring the state's focus on the steel industry and its workers By showing how those who intervened in the industry treated such economic issues as free trade and the globalization of steel production in isolation from the social issues of the day most notably civil rights and the implementation of affirmative action Stein advances a larger argument about postwar liberalism Liberal attempts to address social inequalities without reference to the fundamental and changing workings of the economy she says have led to the foundering of the New Deal state **The**
